AMENDMENT RECORD

Date	Detail	Page
2026 New Issue	Various changes, amendments and additions made throughout document – all amendments identified in red text	Various

DEFINITION

FIM Europe organises European Championships and Prize Events (Cups, Trophies etc.). The FIM Europe Championships and Prize Events are staged as a series of qualifying events leading up to a Final / Final Series.

1 LICENSES

1.1 Riders

Licenses for all European Championships and Prize events are issued by the FIM Europe or FIM.

The minimum obligatory insurance coverage for riders and passengers is as follows:

- For medical treatment - 14.000 Euro
- For repatriation - 3.400 Euro

1.2 Age of Riders and Passengers

Licenses for riders and passengers are issued only with permission of their own federations and with a minimum age as follows for FIM Europe Championships and Prizes, as well as for international events:

	Min. Age	Max. Age
– Individual Speedway Euro Championship	16 years	–
– European Under 19 Speedway Pairs Cup	16 years	19 years
– European Under 19 Individual Speedway Championship	16 years	19 years
– European Under 24 Team Speedway Championship	16 years	24 years
– European Under 24 Individual Speedway Cup	16 years	24 years
– European Individual Ice Speedway Championship	16 years	–
– European Pairs Speedway Championship	16 years	–
– European 85/190cc Youth Speedway Cup		
Riders on 85cc bikes	TBC	15 years
Riders on 190cc bikes	11 years	13 years
– European 250cc Youth Speedway Championship	13 years	16 years
– European 250cc Pairs Speedway Championship	13 years	16 years
– European Individual Grass Track Championship	16 years	–
– European Sidecar Championship	16 years	–
– European 125cc Youth Track Racing Cup	TBC	16 years
– European Team Speedway Championship	16 years	
– European Flat Track Cup	16 years	

- International Speedway, Ice Racing, Sidecar and Grass Track events 16 years –

The minimum age for each and every category of event starts on the competitors' minimum age birthday.

The maximum age (when applicable) finishes at the end of the year in which the competitor reaches the maximum age.

Applicants aged over 50 years must attach to the rider's license request a certificate of fitness certified by a Doctor designated by his FMN and having special knowledge in motorcycle sport medical requirements.

1.3 Entrants

An entry form for each competitor (nominated by his/her FMN to compete in a FIM Europe Individual Championship or Cup event) must be completed **by the rider before each event NO LATER than fifteen days before the event using the official Track Racing Commission entry form – which is located within the FIME 'on-line' entry form system. Once completed, the entry form must then be approved by the riders' FMN, before finally being submitted to the FIME Track Racing Commission.**

This entry form will confirm that the rider (and passenger if applicable), is aware that he/she must compete in all rounds of the respective championship or Cup – should they qualify.

The SEC Finals are an exception to this rule and rule 12.9.6 will apply.

In the situation of a rider nomination being announced later than this deadline date, the announcement must be made immediately, in order that the rider can prepare for the event and send his completed entry form as above without further delay.

For 'Team'/Pairs events, entry forms must be completed by the appointed Team Manager using the official Track Racing Commission entry form – which is located within the FIME 'on-line' entry form system and submitted **no** later than **fifteen** days prior to each event (Semi Final, Qualifying Round and Final).

Once the entry form has been submitted, the rider(s) must participate in the event, unless medically unfit – which must be confirmed by a Medical Certificate. In this situation the FMN of the rider can nominate a replacement rider to the meeting (if it applies). In Team/Pairs events, this rider must be entered with the starting number of the rider he replaces.

If any members of the team are not present until the commencement of the first heat, the team reserve rider must replace him with his starting number.

A competitor or a team who refuses a nomination by their FMN to compete in an FIM Europe Championship or Cup event or, having accepted nomination refuses to take part, shall be deemed banned internationally for a minimum period of ONE day before to THREE days after the meeting concerned.

Furthermore, the competitor or a team shall be considered ineligible for all FIM Europe championship events for the remainder of the season.

A competitor, having been declared and medically certified as unfit to take part in an event (to the satisfaction of either the FIME or the Jury), shall be banned for a minimum period of one day before (where applicable) to THREE days after the event concerned.

A competitor or a team who starts in a FIME Championship or Cup and qualifies for the next round (i.e. Semi-Final, Final or Final Series) must participate unless prevented from doing so by injury or illness (certified in writing to that effect by a suitably qualified Doctor) or other “force majeure”. A decision on the acceptability of other “force majeure” must be taken by the International Jury of the meeting from which the rider is absent or by the FIM Europe Track Racing Commission, if the absence is known before the race meeting.

If the race meeting Doctor/CMO declares the rider unfit, the rider cannot continue racing in that event. The rider will also be banned for the period of time recommended to the International Jury by the Doctor/CMO of the race meeting. In this case, the rider must undergo a medical examination before the start of the next event.

A rider refusing to continue racing in an FIME event will be banned for a period decided by the International Jury of the race meeting. In this situation the International Jury must also consider any possible “force majeure”.

When a rider is withdrawing for any reasons and the withdrawal is accepted by the International Jury, the rider is not allowed to re-enter that event.

In all Championship and Cup events, where the age of participants must be verified by the Jury, a passport or a formal identity should be presented for this purpose. In team competitions, all members of a team must present the passport or a formal identity of the country they represent.

During an FIME event, the Jury, Referee or appointed Race Director has the authority to penalise an FIME licensed rider, a FIM/FIME licensed Official or any other person (e.g. volunteers), in line with the FIME Disciplinary Code. Refer also to section **29** ‘Fines’.

1.4 Substitute Riders

For all events of any FIME competition (except Team events), at least two substitute riders/Sidecars **teams** must be available.

For the first round of any Championship/Cup, the substitute riders/Sidecars **teams** are nominated by the FMNR.

For the following rounds of any competition, the substitute riders will be qualifiers from the previous rounds as stipulated in the rules for **relevant** Championship/Cup events.

If the rules do not provide another solution, the substitute who has qualified from the 1st Semi Final (or Qualifying Round) will be the first substitute on the Starting List of the Final, then the first substitute from the 2nd Semi Final (or Qualifying Round) and so on.

Prior to publishing an event Starting List – in the situation of an injured/unavailable rider(s) – then he/they will be replaced by the next rider(s) from the same Semi Final (or Qualifying Round) – should time allow.

Once the Starting List has been published, an injured/unavailable rider will be replaced by the first substitute on the Starting List and so on. The substitute places on the Starting List will then be completed by riders nominated the FMNR as Track Reserves.

Also in order to complete the line-up of competitors in the case of a non-appearance of the nominated/qualified riders and substitutes in any event, the

FMNR can nominate their own riders/Sidecar **team** as Track Reserves.

The points scored by a Track Reserve count towards the result of the event he is competing in (so the rider/Sidecar team is classified in the overall result of this event), unless the Track Reserve participated in any previous round of the competition and has not qualified further.

1.5 Tracks

Tracks used for European Championships or Cups must be homologated by the FIM Europe or the FIM and have a valid FIM Europe or FIM track license.

It is now compulsory that during all FIME Track Racing events, a large format scoreboard (e.g. printed on thick card, 'Correx' board or similar material, or a large TV screen), should be positioned in an easily accessible place within the pits. The Clerk of the Course must appoint a designed person whose responsibility is to update the scoreboard after each heat, in line with the official results as announced by the Referee.

A promotional car/vehicle (specifically used for advertising purposes) or other similar marketing device (maximum dimensions: 5 mtrs in length x 3 mtrs wide x 2 mtrs high), may be placed on the centre green of the track during racing (as close to the middle as possible), only if the organiser/promoter has suitable and specific insurance which covers such a situation.

In addition, suitable arrangements must be in place for the protection of the vehicle/object (by the use of thick foam or air bags positioned on all corners/sides), and these arrangements must have been accepted by the Jury.

1.6 Centre Green Personnel

Due to a number of recent 'near miss incidents', it is strongly recommended that only those staff necessary should be positioned within the centre green (e.g. Clerk of Course, flag marshals, appointed photographers [where applicable] and First Aid personnel).

It is **STRONGLY RECOMMENDED** that if 'Grid Girls' form part of the pre-race presentation, then once the riders arrive at the tapes, the Grid Girls must then leave the track and stand behind the safety fence and neutral zone.

2 JURY SYSTEM

2.1 Jury Composition

The Jury consists of the following people:

Qualifying Rounds and Semi Finals (*not applicable to Individual SEC Events, Individual Grass Track Semi Finals and Sidecar Qualifying Rounds*) + 250cc Pairs Speedway Championship Finals EXCEPT the last event = **2 people**:

- Jury President/ Referee
- National Jury Member (FMNR)

All Individual Speedway Euro Championship Events (Qualifying Rounds, ECC and Final Series) + Individual Grass Track Semi Finals and Sidecar Qualifying Rounds = **3 people**:

- Jury President – a member of the Track Racing Commission
- Referee
- National Jury Member (FMNR)

Finals = 3 people:

- Jury President – a member of the Track Racing Commission
- Referee
- National Jury Member (FMNR)

2.2 Appeals against the Jury

Appeals against the decision of the Jury or the Referee of the meeting have to be made to the **FIM CDI (Disciplinary Commission)** observing the procedure stated by the Disciplinary and Arbitration Code of the FIM Europe.

3 OFFICIAL'S LICENSES

Any of the following Officials must, when on duty at the FIM Europe Championships or Prize Events, be a holder of the appropriate FIM Europe or FIM license which is valid for the current year:

- Jury President – holder of a FIM Europe or an FIM Clerk of the Course or Track Racing Referee's license for Track Racing,
- Jury Member – holder of a FIM Europe or an FIM Clerk of the Course license for Track Racing,
- Jury President/Referee – holder of a FIM Europe or an FIM license for Track Racing Referee
- Referee – holder of a FIM Europe or an FIM license for Track Racing Referee
- SEC/ECC/ETSC Race Director – holder of a FIM Europe or an FIM Clerk of the Course license for Track Racing,
- Clerk of the Course – holder of a FIM Europe or an FIM Clerk of the Course license for Track Racing,
- FMNR and FMN Delegates – holder of a FIM Europe or an FIM Clerk of the Course license for Track Racing,
- Technical Stewards – holder of a FIM Europe or an FIM license for Track Racing Technical Stewards,

- Timekeeper – holder of a FIM Europe or an FIM license for Timekeepers
- **Sustainability** Steward – holder of a FIM Europe or an FIM license for **Sustainability** Stewards,
- Team Manager – holder of a FIM Europe or an FIM Clerk of the Course license for Track Racing.

4 SUPPLEMENTARY REGULATIONS

The Supplementary Regulations (SR's) for an event must be sent directly to the FIM Europe Track Racing Commission (TRC) Chairman for approval AT LEAST 60 DAYS prior to the event. The TRC Chairman will signify approval of the Supplementary Regulations by adding his signature to the last page of the SR's. Once the SR's have been approved, the TRC Chairman will send a copy to the FMNR, the Jury President/ Referee and the FIM Europe General Secretariat.

In the situation where the TRC Chairman does not receive the Supplementary Regulations within the specified time frame of 60 days, the FMNR responsible for the meeting will be fined 130 €

The organiser of a European Championship or Cup event must provide the Jury President with a copy of the insurance policy written in English or French covering their own third-party liability and those of the manufacturers, riders, passengers, sponsors and officials in case of accidents to third parties during an event or during any practice sessions.

The insurance policy shall also cover any possible liability of the FIM Europe to third parties.

The minimum amount of coverage of the third-party liability insurance provided for is **350.000 €** per event.

Note 1: The third-party insurance will come into effect **one day** before the official practice session and will terminate two days after the last race day.

Note 2: A copy of the third-party liability insurance document must be emailed to the TRC NO LATER than seven days before the meeting.

It is now compulsory for the organiser of any FIME Track Racing event (except 85cc/**190cc** and 125cc) to ensure that a supply of Methanol (together with a suitable certificate) is available at the stadium/track (either supplied free of charge or against payment – as per the applicable regulations).

If the methanol is chargeable, then information confirming the price must be stipulated in the event Supplementary Regulations.

5 RESULTS,

The organiser or Jury President must send the results of the European Championships/Cups immediately after the meeting to: the FIM Europe General Secretariat (e-mail: sport@fim-europe.com), the FIM Europe Press Office (e-mail: fimeuropepress@gmail.com), the FIM Europe results website (e-mail: results@fim-europe.com), the FIM, (e-mail: ccp@fim.ch), **the TRC social media co-ordinator** smtcrfime@gmail.com and the TRC Chairman (e-mail: trc.fime@gmail.com).

6 REPORTS

The Jury President, Jury President/Referee and Referee must send the following documentation to the FIM Europe Secretariat in Rome and the TRC Chairman:

- The results MUST BE SENT IMMEDIATELY – after the last Jury meeting; to the FIM Europe **Sports department**, the FIM, the FMNR and the TRC Chairman.
- Details of any protests submitted together with the fees collected.
- The Jury President's or Referee's report within 72 hours following the event **together with a signed copy of the official results and Jury Minutes**
- The SEC Race Director must also submit his/her report within 72 hours following the event.

Press Release (Race Report) – in addition to the above, the Jury President is also responsible for compiling a short report – using the TRC's 'Press Release' template. This report must be submitted to the FIME Press Office, and all addresses listed in the document, together with the official results and suitable photographs from the event, immediately following the end of the final Jury meeting.

The organisers are therefore requested to provide a personal computer (for sending and receiving emails), together with a working Internet connection (can be either wi-fi or cable).

The results list of the Championships and Cups will appear on the FIM Europe (www.fim-europe.com) and FIM Internet sites (www.fim-live.com).

In addition to the above reports, the Jury President, Jury President/Referee must send a copy of any Accident Report form(s) – as completed by the Chief Medical Officer – promptly to the relevant injured rider's federation.

7 FIM EUROPE FLAG/ FIM EUROPE LOGO/ PODIUM

It is mandatory for all FMNR/Organisers to display the FIM Europe flag during all European Championships or Cup events – including any Qualifying Rounds, Semi Finals and the SEC Challenge.

The FIM Europe flag must be purchased from the FIM Europe **Administration team** in Rome.

On all official documents regarding FIM Europe Championship or Cup events, the FIM Europe logo must be used in the official colours. A jpeg/eps file can be requested from the **FIM Europe Administration team** in Rome.

An official winner's podium **MUST** be provided by the organisers of the 'Final' event in each European Championship or Cup competition to ensure that a high standard of presentation is achieved for the prize giving ceremony.

It is also strongly recommended that a winner's podium should be supplied by organisers of qualifying rounds and Semi-Finals of FIM Europe Championship events.

8 PRIZE GIVING CEREMONY TO THE EUROPEAN CHAMPIONS

The prize giving ceremony for the first three riders (or Pairs or Teams), of any European Championship or Cup event must be held on the occasion of the Final or the last event of a series.

The riders will receive medals provided by the FIM Europe.

Furthermore, the FMN's of the respective riders will receive from the FIM Europe a commemorative individual prize for distribution to the riders at the end of the year.

Only the riders are permitted to stay on the podium during the ceremony.

The following protocol must be respected:

1st Place

- Sovereign or, Head of State or, Prime Minister or, a Minister/Secretary of State or the Governor of the Province or the Prefect or the Minister of the Province or their equivalents.

In this precedence:

- FIME President or representative (Board member, TRC Chairman or Jury President).
- FMNR President or representative.

2nd Place

- Local promoter / organiser.
- FIME President or representative (Board member, TRC Chairman or Jury President).
- FMNR President or representative.

3rd Place

- Title or main sponsor.
- FIME President or representative (Board member, TRC Chairman or Jury President).
- FMNR President or representative.

MEDALS

- FIME President or representative (Board member, TRC Chairman or Jury President).

9 GENERAL INFORMATION

All communications **from** the FIM Europe **Administration department** are always made through the FMN's.

The FMN's are requested to transmit all information (rules, letters, calendars, etc.) to all relevant persons and organisations (Members of FIM Europe Commission and Panel Members, Organisers, Jury Members, Jury Presidents, Referees, Riders, etc.).

Communications to members of the FIM Europe **Board of Directors** and the Chairmen of the Commissions are made directly to them.

10 APPLICABLE RULES

The following rules are in force for Track Racing:

FIM Europe Statutes and By-Laws
FIM Europe Annuaire **2026**
FIM Europe Disciplinary and Arbitration Code **2026**
FIM Europe Sporting Code **2026**
FIM Track Racing Technical Rules **2026**
FIM Medical Code **2026**
FIM Anti-Doping Code **2026**
FIM Sustainability Code **2026**
FIM Track Racing Appendices **2026** – General Rules
FIM Standards for Track Racing Circuits **2026**
FIM Code of Ethics **2026**

In addition to the rules mentioned above, the **2026** rules for European Track Racing Championships and Cup events for are also applicable.

All rules – as stated in the **2026** FIM Track Racing Appendices (General Rules for Track Racing) – are applicable to all FIM Europe Championship and Cup events. However, if there is a contradiction between a rule that appears in the FIM and FIM Europe Track Racing Rules (TRR's), then the FIM Europe rule takes priority.

11 THE ENVIRONMENT

Environmental issues and the protection of our planet is an extremely sensitive subject, therefore organisers, competitors and spectators alike must all work together to ensure we do our very best to protect the environment.

The FIM Sustainability Code is fully supported and upheld by FIM Europe. However, the TRC would remind organisers to ensure that every effort **MUST** be taken to ensure that the ground is protected from spillages and leakages. Therefore, any waste oil containers must be positioned within a bund (a protective container or absorbent material to prevent further leakage), and that generators used at an FIME event are positioned on either an environmental mat or other suitable protection.

Organisers must also make arrangements for providing a suitable number of waste collection points for general rubbish (waste bags, collection bins etc.) based on the number of spectators they anticipate attending their event

12 INDIVIDUAL SPEEDWAY EURO CHAMPIONSHIP (SEC)

12.1 General

The Individual Speedway Euro Championship (SEC) consists of the 'Qualification stage' with **three** Qualifying Rounds, the Individual Speedway Euro Championship Challenge (ECC) and the series of four 'Final' events.

The Final series will be organised in partnership with a contractual FIM Europe Promoter.

The Individual Speedway Euro Championship Bureau (ECB) is a specific commission responsible for controlling the organisation of the Individual Speedway Euro Championship Final series. The ECB will consist of four members – two members from the contractual FIM Europe Promoter and two members from FIM Europe Track Racing Commission. The ECB Chairman will be the Chairman of FIM Europe Track Racing Commission. Decisions of the ECB are undertaken by voting and require simple majority in votes. In case of a tie, the Chairman will exercise a casting vote.

12.2 Participants

For the 'Qualification stage' of this championship, each FMN can nominate their own riders. The riders will then be allocated (by the FIM Europe TRC) to the various Qualifying Round events. The FMNR of each Qualifying Round can nominate two substitutes to this event. The line-up of riders for the Final series events will be completed by nominated and Wild Card riders as stipulated in 12.9

Note: FIM Speedway Grand Prix 'permanent' riders are not entitled to participate in the SEC Qualifying Rounds or the ECC.

12.3 Event Format

All SEC events consist of 'Qualifying Heats' as listed in the table over the page.

Note: the 'Last Chance' Heat and the 'Final' Heat will only be run in SEC Final events.

All heats will consist of four laps.

(Continued over the page)

Qualifying Heats Table

Helmet Colour	Red (inside)	Blue	White	Yellow (outside)
Heat No.	Riders' Starting Numbers			
1	1	2	3	4
2	5	7	6	8
3	10	11	9	12
4	15	14	16	13
5	13	1	5	9
6	14	10	2	6
7	11	15	7	3
8	4	8	12	16
9	6	16	1	11
10	12	5	15	2
11	8	9	3	14
12	13	4	10	7
INTERVAL				
13	7	12	14	1
14	2	13	8	11
15	16	3	10	5
16	9	6	4	15
17	1	8	15	10
18	9	2	7	16
19	3	12	13	6
20	5	14	11	4

After Heat 20 there will be an Intermediate Classification according to the total race points each rider has scored during the Qualifying Heats.

This classification will be deemed as the final classification for all SEC Qualifying Rounds as well as the ECC.

In case of any tie in the Intermediate Classification after Heat 20, article **27.1** applies (for SEC Finals refer to 12.9.11).

In the SEC Finals, the two best placed riders will qualify for the Heat 22 (Final Heat). The riders placed 3rd to 6th will participate in Heat 21 (Last Chance Heat). If a rider is not able to participate in the Last Chance Heat or in the Final Heat, he CAN NOT be replaced by another rider. He will be deemed as the last place finisher of that heat.

Heat 21 Last Chance Heat

The riders placed 3rd – 6th will participate in this heat. The winner and the runner up of this heat will qualify for the Heat 22 (Final Heat).

(Continued over the page)

Riders' gate positions will be chosen by the riders in the order determined by their position in the intermediate classification. No points will be awarded in Heat 21.

Heat 22 'Final Heat'.

Following the Intermediate Classification (after Heat 20), the two best placed riders, plus the winner and runner up of Heat 21 (the Last Chance Heat) will participate in the 'Final Heat'.

Riders' gate positions will be chosen by the riders in the following order: 1st placed rider of the Intermediate Classification (1st choice), then the 2nd placed rider of Intermediate Classification (2nd choice), followed by the winner of the Last Chance Heat (3rd choice), and finally the runner up of Last Chance Heat.

12.4 Results

The final classification will be according to the points scored during the event.

For Qualifying Rounds and the ECC: the results will be decided after Heat 20.

For SEC Finals: Position's 1st – 4th in the final event classification will be according to the result of the Final Heat (Heat 22) – irrespective of the total race points scored.

After Heat 21, the remaining riders will be classified for positions 5th to 18th according to the points they have scored after Heat 20

In the case of any ties, refer to section **27** 'Ties' further within these rules (for the Finals please also refer to article 12.9.11)

Qualifying Rounds, ECC and Finals: If the meeting has to be abandoned for whatever reason before the full schedule of heats has been completed, the 'Intermediate Classification' – after either Heat 12, 16 or 20 (depending on the number of heats completed) – will be confirmed as the final event result.

12.5 Qualifying Rounds

There will be **three** Qualifying Round events organised at the 'Qualification' stage of the SEC. The **five** best riders from each Qualifying Round (as per 12.4 above) will qualify to the ECC, the two reserve riders for the ECC will be two riders nominated by the organiser of the ECC unless no FMNR rider has qualified to the ECC, then the FMNR can nominate its own rider for this event.

In this case, only the **four** best riders from Qualifying Round 3 will qualify to the ECC and the **fifth** rider of this Qualifying Round 3, will be the 1st reserve rider for the ECC. When this situation arises, the FMNR of the ECC organiser will nominate the 2nd reserve rider for the ECC.

If a rider who has qualified for the ECC is not able to take part, he will be replaced by the next placed rider from his respective Qualifying Round –should time allow. In the situation where the FMNR has nominated its own rider to the ECC, and the Starting List has been published (with the **5th** rider of the Qualifying Round 3 as the 1st ECC reserve), he will replace any rider who has qualified and is not able to take part in the ECC. Once such a replacement has taken place any other riders who are not able to take part in the ECC, will be replaced by the next placed rider from their respective Qualifying Round –should time allow.

12.6 ECC

The **six** best riders from the ECC will qualify to the SEC Final Series.

(Continued over the page)

12.7 Practice

If the practice is planned on the same day as the event, then it must be scheduled a minimum of three hours prior to the first heat.

For the SEC Final rounds, scheduled practice may be replaced by a 'Warm-Up session' – which must be accepted by the ECB Commission prior to approval of the Supplementary Regulations for an event.

The 'Warm-Up session' must be scheduled no later than 90 minutes prior to the first heat.

In line with the current 'FIME Official Practice Schedule', practice will consist of two sessions per rider. Each session will be two minutes long, as determined by the Referee.

During all practice sessions there will be a maximum of four riders on the track.

12.8 SEC Race Director

In line with FIME Sporting Code 40.7, a Race Director can be nominated for the ECC and SEC Finals.

The Race Director is responsible for the conduct and efficient running of the SEC. He is not a voting member of the International Jury but shall be present at all FIME Jury meetings.

The Race Director must ensure that the FIME's contractual commitments with the FIME SEC Promoter are fulfilled and complied with.

12.9 Final Series

12.9.1 Qualified Riders

Riders placed 1st to 6th from the previous year's SEC will automatically qualify for the Final Series.

If one or more of these six riders has also qualified for the FIM Speedway Grand Prix (as permanent riders), then he/they will also be allowed to participate in the SEC.

Riders placed 1st to 6th in the ECC will qualify for the Final series.

12.9.2 Nominated Riders

Three additional riders will be nominated by the ECB for the Final series – at the latest – one week after the Individual ECC.

If any rider placed 1st to 6th in the previous year's SEC refuses, or is unable to participate in the Final series, a subsequent 'Nominated' rider (or riders) will participate in his/their place (or places) in the Final series. The 'Nominated' rider (or riders) cannot be the permanent riders of the FIM Speedway Grand Prix. The 'Nominated' rider or riders will be nominated by the ECB.

12.9.3 Wild Card Riders

'Wild Card' riders (SEC Final series) will be nominated for each 'Final' event. All FMNs may propose suitable Wild Card riders. These proposals must be made in writing to the ECB email: trc.fime@gmail.com no later than one month prior to the event.

The ECB will make the final approval and nomination

After nomination, the official SEC Final series entry form for Wild Card riders must be completed and signed by both the rider and his FMN.

The FMN is responsible for completing and submitting the entry form to the FIM Europe Track Racing Commission at least two weeks before the event to which the rider is nominated.

Furthermore, the rider commits himself – by his signature – to be fully aware of all the FIM Europe rules; to accept them, and to compete in the SEC Final Series event for which he has been nominated.

12.9.4 Track Reserve Riders

The FMNR will propose two 'Track Reserve Riders' to compete in each Final event. Proposals must be made in writing to the FIM Europe Track Racing Commission no later than one month prior to the meeting. The ECB will make the final approval and nominations.

After nomination, the official SEC Final Series entry form for Track Reserve riders must be completed and signed by both the rider and his FMN. The FMN is responsible for completing and submitting the entry form to the FIM Europe Track Racing Commission at least two weeks prior to the event for which the rider has been nominated.

Furthermore, the rider commits himself – by his signature – to be fully aware of all the FIM Europe rules; to accept them, and to compete in the SEC Final series event for which he has been nominated.

12.9.5 Qualified Substitute Riders

The ECB will nominate four riders to the 'Qualified Substitute List'.

In case of the absence of one or more riders in the Final events, the first available Qualified Substitute rider (or riders) – according to their placing on the SEC 'Qualified Substitutes list' – will be elevated to that event and will take the place(s) of the relevant missing rider(s).

The list of Qualified Substitute riders will be published by the FIM Europe Track Racing Commission after the ECC.

All Qualified Substitute riders must submit the official SEC Final series entry form for Qualified Substitute riders to the FIM Europe Track Racing Commission prior to the deadline required by the Commission. This entry form must be completed and signed by both the rider and his FMN.

This entry form enters the rider into ALL the SEC Individual Final series events he may be called up to compete in, unless prevented from doing so by injury or other "force majeure".

If a rider is unable to compete due to injury, then a suitably qualified Medical Practitioner must certify the injury or illness in writing to that effect.

The FMN is responsible for the completion of this entry form and submitting it to the FIM Europe Track Racing Commission.

Furthermore, the rider commits himself – by his signature – to be fully aware of all the FIM Europe rules; to accept them, and to compete in the SEC Final series event for which he has been nominated.

If a rider from the 'Qualified Substitutes List' (SEC Finals) receives a nomination (usually by email or telephone), to take part in a meeting LATER than 48 hours prior to the 'Signing On' time for the event, he has the right to reject the nomination.

A Qualified Substitute rider, who (without a reason accepted by the Chairman of the FIM Europe Track Racing Commission), refuses to take part in a meeting, may be removed from the Qualified Substitute riders list for the rest of the season.

If no 'Qualified Substitutes' are available, the ECB or the International Jury may nominate one or more substitute riders.

12.9.6 Entries

No entry fee may be charged.

Only Qualified and Nominated riders will be allowed to enter the SEC Final series.

All riders must submit the official SEC Final series entry form to the FIM Europe Track Racing Commission prior to the deadline required by the Commission. This entry form must be completed by the rider using the official Track Racing Commission entry form – which is located within the FIME 'on-line' entry form system. Once completed, the entry form must then be approved by the riders FMN, before finally being submitted to the FIME Track Racing Commission.

This entry form confirms that the rider will compete in all the SEC Final series events of the year.

For Wild Cards refer to article 12.9.3, for Track Reserve riders refer to article 12.9.4 and for Qualified Substitute riders refer to article 12.9.5.

Furthermore, the rider commits himself – by his signature – to be fully aware of all the FIM Europe rules; to accept them, and to compete in all the events of the SEC Final series.

A rider, who has entered the SEC Final series and then refuses to take part, shall be deemed to be suspended from competing internationally for a period of one day before and three days after the SEC series meeting concerned. Furthermore, he will be considered as ineligible for the SEC series for the remainder of the season.

A competitor who has started in the SEC series must participate therein unless prevented from doing so by injury or other "force majeure".

If a rider is unable to compete due to injury, then a suitably qualified Medical Practitioner must certify the injury or illness in writing to that effect.

If during the race meeting the CMO/Doctor declares that the rider is unfit, then the rider CANNOT continue racing at that particular event. The 'unfit rider' will also be banned from competing for the period of time as recommended by the CMO/Doctor to the International Jury at that specific event. In this situation, the 'unfit rider' must undergo a separate medical examination before the start of the next event.

The competitor shall be deemed suspended internationally for a minimum period of one day before (where applicable) and up to three days after the event concerned.

In the case of a “force majeure”, the International Jury of the meeting will decide on the situation/circumstances surrounding the rider’s non-appearance.

If the absence of the rider is fully justified and accepted by the International Jury, he will be reinstated in the SEC series.

No FMN or other body or person may withdraw a rider from the competition once he/she has entered – without prior authorisation in writing from the FIM Europe Track Racing Commission.

12.9.7 Riding Numbers (Starting Position Draw)

Before the first SEC Final of the season, the ECB will publish a ‘Ranking List’ of all participants of the Final Series.

Riders who finished in positions 1st to 6th in the previous year SEC Final classification will be allocated ranking numbers 1 to 6 according to their placing.

If any of these riders do not accept the invitation to take part in the SEC Finals, the remaining riders will be progressed on the ‘Ranking List’ accordingly.

In each SEC Final event, riding number 16 will be allocated to the ‘Wild Card’ rider, and riding numbers 17 and 18 will be allocated to the Track Reserve riders.

The ‘Ranking List’ after the first and following Finals will be the same as the SEC Finals Intermediate Classification – refer to Article 12.9.11.

The ranking SEC number will be used to resolve any eventual ties where the lowest ranked number is deemed to be the better placed rider. Additionally, the fifteen permanent and up to four substitute SEC riders may apply to use their own ‘personal’ racing number on their race jacket and motorcycle.

They may choose any riding number with a maximum of three digits, provided that it has not previously been allocated to another rider – and the number does not start with a 0 (zero). Riding numbers 1 to 22 are reserved for the use of FIME only. Riders can only use them if it complies with their ranking numbers.

To request a specific ‘personal racing number’, the rider must send an application to the FIME TRC within a set deadline – which is seven days after the ECC date.

Should more than one rider request the same ‘personal racing number’, preference will be given to the rider who has a clear history of using this number, or if this is not the case, this number will be allocated to the rider with the higher-ranking position (lowest ranking number). Other riders will then need to select an alternative number.

Riders who have not requested a specific personal riding number within the deadline will be required to use their ranking SEC number.

(Continued over the page)

The FIME SEC promoter will supply the riding number jackets, and it is compulsory for each rider to wear their riding number jacket at all times e.g. during any TV interviews, ballots, practice sessions, Riders Parade, press conferences, racing, during the Prize Giving Ceremony and in the pits area.

It is not permitted to cover any part of the riding number jacket with any other logo, sticker or object, other than safety related equipment (e.g. a neck brace).

All riding number jackets (issued by the FIME SEC promoter), will need to be signed out when received and signed back in again when returned by the rider's mechanic or representative – to a collection point to be confirmed by the Race Director at each event.

Each rider is responsible for his riding number jacket – with the cost of any riding number jacket not returned being charged to the rider – the cost of which will be deducted from his prize money.

A starting position draw for each Final event will be balloted by the FIME.

12.9.8 Additional Requirements for the SEC Finals

- A large faced 'count-down' clock must be positioned on the infield – in front of the start line tapes – to indicate the remaining time of the '90 second' time allowance.
- A second white lining machine must be provided near the pit gate (entrance to the track), together with a dedicated operator.
- The attendance for a Chief Medical Officer (e.g. an FIM licensed Doctor), is **compulsory** for all SEC Finals.

12.9.9 Fuel

Fuel will be supplied free of charge to the riders by the event organisers. It is compulsory for the riders to use the fuel supplied by the organiser during both practice and racing.

12.9.10 Restaging of the Event

If due to adverse weather conditions, the event cannot be run on the scheduled date, and the Jury – in agreement with the organiser/promoter – having studied the regional and national weather forecasts – assume that it will not be possible to re-run the event on the official restaging date, then the event will be postponed, and the organiser/promoter may propose a new date to run the event.

This new 'staging' date must be accepted by the TRC Chairman or Vice Chairman, and a new set of Supplementary Regulations for the event must be issued with 24 hours of the cancellation and sent to the FIME TRC for approval.

12.9.11 Results

Each SEC Final meeting results will be according to article 12.4

In the situation of any ties in the classification after Heat 20, then refer to article **27.1** a, b. If the tie cannot be solved by this criterion, then the rider with the 'lower ranking' number on the SEC 'Ranking List' will be deemed the better placed rider.

(Continued over the page)

The total points scored by each rider in the Qualifying Heats and the 'Final Heat' of each Final event will also be credited as European Championship points.

After each SEC 'Final' event, an Intermediate Classification list will be compiled, which after completion of the first SEC 'Final' will be the results list of that event. After completion of each of the following SEC 'Finals', the total points scored by each rider in all the events will decide their respective position on the Intermediate Classification list.

In case of any ties on the Intermediate Classification list, the rider with the 'lower ranking' number on the SEC 'Ranking List' will be deemed the better placed rider.

The Individual Speedway Euro Champion will be the rider having collected the most European championship points at the end of the series.

The Speedway Euro Champion will have the right to become a permanent FIM Speedway Grand Prix (SGP) rider for the following year. If for whatever reason the SEC Champion cannot compete in the following years SGP, then no other SEC rider will be offered this position.

In case of a tie between one or more riders in the final overall classification, a run-off will take place to decide the 1st, 2nd and 3rd places. If in the 'Final Classification', there is a tie for 6th place, then this will require a run-off to decide the final place for the following year's qualified riders. For all other places, the rider with the 'lower ranking' number on the SEC 'Ranking List' will be deemed the better placed rider.

12.9.12 Riders Pit Bays and Winners Prize Giving Ceremony

Due to the live TV broadcast of the SEC Finals, the dismantling, packing up and removal of riders' equipment and motorcycles from each rider's pit bay is not allowed until the completion of the Final heat of the event.

Riders who have participated in the "Last Chance" and the Final heats must remain dressed in their racing suits for 20 minutes after the completion of the Final heat, in order to participate in the activities and winner's prize giving ceremony organised by the series Promoter.

13 EUROPEAN TEAM SPEEDWAY CHAMPIONSHIP (ETSC)

13.1 General Competition for National Teams.

Teams from different nations will compete in **two** events, called the '**ETSC Challenge Day**' and the 'Grand Final'. The TRC will nominate the teams from those who have applied to compete in the events.

In addition to these teams, a team from the organising FMNR – hosting each **event** – is guaranteed a place in **the competition**.

The riders of each team must be of the same nationality as the FMN that has nominated them. One permanent FIM SGP rider of the current year is allowed to race in each team.

It is compulsory for each team's riders to wear a team race suit at all times during practice, parade, TV interviews, draws, press conferences, racing, prize giving ceremony and whilst in the pits area.

The Challenge Day will comprise of two team tournaments with Groups 'A' and 'B' – each consisting of four teams allocated by the TRC, which will be run separately or at the same time with races of both tournaments held alternately on the same day.

The winning teams **in both Groups** will qualify through to the 'Grand Final', together with the highest point scoring team of the two teams which finished second in their respective **Groups** – refer to article **27.2.2** in case of a tie.

If, in any of the **group tournaments** 'A' and 'B', there is a tie for the qualifying place to the Grand Final, there will be an additional heat to resolve the tie – refer to item **27.2**.

13.2 Race Director **and CMO**

In line with FIME Sporting Code 40.7, a Race Director can be nominated for the European Team Speedway Championship Final.

The Race Director is responsible for the conduct and efficient running of the event. He is not a voting member of the International Jury but shall be present at all FIME Jury meetings.

The Race Director must ensure that the FIME's contractual commitments with the FIME Promoter are fulfilled and complied with.

The attendance for a Chief Medical Officer (e.g. an FIM licensed Doctor), is compulsory for ETSC Grand Final.

13.3 Team Composition

The four competing teams will consist of five riders: four riders having programmed rides and the fifth rider being a substitute who must be an Under 21 rider, as follows:

Team A	(RED helmet colour)	No's	1	2	3	4	17 (substitute)
Team B	(BLUE helmet colour)	No's	5	6	7	8	18 (substitute)
Team C	(WHITE helmet colour)	No's	9	10	11	12	19 (substitute)
Team D	(YELLOW helmet colour)	No's	13	14	15	16	20 (substitute)

(Continued over the page)

13.4 Substitute Riders

The substitute rider may take the place of any programmed rider at any time, within the maximum number of permitted heats (two starts in heats **9** and **18**, three heats as a substitution and one as a tactical reserve) when decided by the Team Manager.

NOTE: There will be no Joker rule for this championship.

A team which is 6 points behind the leading team, can use a tactical reserve once in the meeting in heats 5-20 (except heats **9** and **18**). Any other rider of the team can replace the rider scheduled for that heat.

13.5 Briefing Sessions

Team Managers, nominated, and licensed Officials (not the competitors) must attend the Briefing sessions (as presented by the Jury President, Referee, Race Director, and the Clerk of the Course). It is the responsibility of the Team Managers to then brief their riders of any information that is relevant to the smooth running of the event (timings for practice, alcohol breath testing, arrangements for the rider's presentation etc.).

13.6 Practice

If practice is planned on the same day as the event, then it must be scheduled a minimum of three hours prior to the first heat.

One practice session will be planned for each team where each rider will have two practice runs.

Teams may have a maximum of four riders participating in each practice session in line with the current 'FIME Official Practice Schedule'.

Each practice session will be two minutes long, as determined by the Referee.

For this competition, scheduled practice may be replaced by a 'Warm-Up session' – which must subject to the approval of the TRC Chairman prior to the approval of the Supplementary Regulations for the event.

The 'Warm-Up session' must be scheduled no later than 90 minutes prior to the first heat.

If the Track Inspection Report allows for there may be five riders on the track for each practice/'warm-up' session.

(Continued over the page)

13.7 Race Format (applies to each **Tournament and the Grand Final**):

Heat No.	Gate 1 <i>(inside)</i>	Gate 2	Gate 3	Gate 4 <i>(outside)</i>
Riders' Starting Numbers				
1	12	5	4	14
2	6	3	13	11
3	2	9	8	15
4	7	1	16	10
INTERVAL				
5	9	16	6	4
6	3	10	15	5
7	13	12	7	2
8	11	14	1	8
INTERVAL				
9	Riders 17, 18, 19, 20 Note: starting gates to be balloted before Heat 1			
10	8	4	10	13
11	14	7	9	3
12	5	11	2	16
13	15	6	12	1

14	16	8	3	12
15	4	15	11	7
16	10	2	14	6
17	1	13	5	9
18	Riders 17, 18, 19, 20 Note: starting gates to be balloted before Heat 1			
INTERVAL				
19	4 th A	4 th B	4 th C	4 th D
20	3 rd B	3 rd C	3 rd D	3 rd A
21	2 nd C	2 nd D	2 nd A	2 nd B
22	1 st D	1 st A	1 st B	1 st C

(Continued over the page)

The overall points scored by all riders within a team will decide on the classification of a tournament.

Points scored by riders in all heats count towards the overall result of the event.

After Heat **17**, the points scored (including any points scored as a tactical reserve) will be taken into account for riders nominated for Heats 19, 20, **21 and 22**.

In the situation where riders of the same team are tied on points, the Team Manager will determine which rider will ride in which heat.

The rider nominated as the 'substitute', will be the substitute rider for the whole meeting. After sixteen heats the substitute rider is not classified, but he is entitled to race in a maximum of five heats in the meeting (plus one heat as the tactical reserve) – including the two compulsory starts in Heats **9** and **18**

Ties (between teams) – in the event of a tie in the classification of the event, refer to article **27.2.1** further within these rules.

The minimum number of heats which must be accomplished for the result to be standing is 12.

14 EUROPEAN UNDER 19 INDIVIDUAL SPEEDWAY CHAMPIONSHIP

14.1 Participants

Competitions for individual riders: sixteen riders (plus two substitute riders) will compete in each meeting.

For this championship, each FMN must nominate their own riders. The number of riders from each FMN will be allocated by the TRC to the Semi Final events.

The limit for the minimum age starts on the date of the rider's birthday and the limit for the maximum age (19 years) finishes at the end of the year in which the competitor reaches their 19th birthday.

The following number of riders will qualify to the Final:

- Semi Final 1: Eight riders
- Semi Final 2: Eight riders

The substitute riders for the Final will be two riders nominated by the FMNR.

In case of a tie refer to article **27.1.1**.

The FMNR hosting the Final, will have at least one rider competing in the Final.

If no FMNR rider has qualified from the Semi Finals, then only seven riders and one substitute rider will qualify to the Final from Semi Final 2 and the host FMNR can nominate its rider for the Final.

In the situation where the host FMNR rider (qualified or nominated), cannot participate in the Final, (e.g. due to injury), the FMNR can replace him with another rider.

14.2 Practice

If practice is planned on the same day as the event, then it must be scheduled a minimum of three hours prior to the first heat.

Practice will consist of two sessions per rider – in line with the current 'FIME Official Practice Schedule'. Each session will be two minutes long, as determined by the Referee.

During all practice sessions there will be a maximum of four riders on the track.

14.3 Race Format

All heats will consist of four laps.

The events are conducted according to the schedule for 20 heats.

(Continued over the page)

Helmet Colour	Red (inside)	Blue	White	Yellow (outside)
Heat No.	Riders Starting numbers			
1	1	2	3	4
2	5	7	6	8
3	10	11	9	12
4	15	14	16	13
5	13	1	5	9
6	14	10	2	6
7	11	15	7	3
8	4	8	12	16
9	6	16	1	11
10	12	5	15	2
11	8	9	3	14
12	13	4	10	7
INTERVAL				
13	7	12	14	1
14	2	13	8	11
15	16	3	10	5
16	9	6	4	15
17	1	8	15	10
18	9	2	7	16
19	3	12	13	6
20	5	14	11	4

In the event of a tie, refer to article **27** 'Ties' further within these rules.

In case of the meeting being abandoned before Heat 20, classification after Heat 12 or 16 (according to the number of heats having been accomplished) will be the final classification of the meeting.

15 EUROPEAN UNDER 19 SPEEDWAY PAIRS CHAMPIONSHIP

15.1 General

Competitions for National Pairs: eight 'Pairs' will compete in the Final event. Following a decision of the TRC Chairman (or Vice Chairman in case of his absence), a mixed pair with riders of different nationalities may be allowed to compete in the event.

Each 'Pair' consists of two scheduled riders + one substitute rider (this is not compulsory, but strongly recommended), who are entitled to race in a maximum of seven heats.

The limit for the minimum age (16 years) starts on the date of the rider's birthday and the limit for the maximum age (19 years) finishes at the end of the year in which the competitor reaches their 19th birthday

A 'Pair' representing the FMNR hosting the Final will be allocated a place in the Final.

If the situation arises where a 'Pair' is missing, the FMNR will provide an additional 'Pair'. The points scored by the additional 'Pair' will be counted towards the results of the race. However, the additional 'Pair' will not be classified in the final championship result.

If for whatever reason there will be less 'Pairs' for the Final, then following a decision of the TRC Chairman (or Vice Chairman in case of his absence), the event will be run according to an alternative system, which will be confirmed, however the age limit for participants as above must be observed.

15.2 Participants

Each FMN may nominate one 'Pair'. The riders of a 'Pair' must have a passport issued by the country of the FMN which nominated the 'Pair'.

15.3 Briefing Sessions

Team Managers, nominated, and licensed officials (not the competitors) must attend the Briefing sessions (as presented by the Jury President, Referee, and the Clerk of the Course). It is the responsibility of the Team Managers to then brief their riders of any information that is relevant to the smooth running of the event (timings for practice, alcohol breath testing, arrangements for the rider's presentation etc.)

15.4 Practice

If practice is planned on the same day as the meeting, practice must be scheduled a minimum of three hours prior to the first heat in line with the current 'FIME Official Practice Schedule'

Each 'Pair's' team will have the opportunity to have two free practice sessions of two minutes each.

15.5 Race Format

The Final will be run accordingly to article **28.3** further in these rules

16 EUROPEAN PAIRS SPEEDWAY CHAMPIONSHIP

16.1 General

Competitions for National Pairs: **seven** 'Pairs' will compete in each event.

Depending on the availability of teams entering the competition, it is also possible that six 'Pairs' can compete in each Semi Final or Qualifying Round

Each 'Pair' consists of two scheduled riders + one substitute rider (this is not compulsory but strongly recommended), who is entitled to race in a maximum of **six** (five in a six "Pairs" format) heats.

The participating 'Pairs' will be divided into two Semi Finals and a Final according to the decision of the FIM Europe TRC. Three 'Pairs' from each Semi Final will qualify to the Final.

If due to insufficient numbers of Pairs entering the competition, (where it would be impossible to stage two Semi Finals and a Final), then the TRC will alter the competition to one Qualification Round and a Final. Allocations to these events will be decided by the TRC according to the previous year's ranking. The TRC will also confirm the number of Pairs who will qualify through to the Final from the Qualifying Round.

A 'Pair' representing the FMNR hosting the Final, will be allocated a place in the Final.

If the situation arises where a 'Pair' is missing, the FMNR will provide an additional 'Pair'. The points scored by the additional 'Pair' will be counted towards the results of the race. However, the additional 'Pair' will not be classified in the final championship result.

16.2 Participants

Each FMN may nominate one 'Pair'. The riders of a 'Pair' must have a passport, or a suitable form of identity issued by the country of the FMN which nominated the 'Pair'.

16.3 Briefing Sessions

It is strongly recommended that Federations competing in this event send a Team Manager to oversee their riders and to attend the official Briefing sessions.

Team Managers, nominated, and licensed officials (not the competitors) must attend the Briefing sessions (as presented by the Jury President, Referee, and the Clerk of the Course). It is the responsibility of the Team Managers to then brief their riders of any information that is relevant to the smooth running of the event (timings for practice, alcohol breath testing, arrangements for the rider's presentation etc.).

16.4 Practice

If practice is planned on the same day as the event, then it must be scheduled a minimum of three hours prior to the first heat.

Each 'Pair's' team will have the opportunity to have two free practice sessions of two minutes each in line with the current 'FIME Official Practice Schedule'.

16.5 Race Format

Each meeting will be run accordingly to article **28.1** further in these rules. Three best 'Pairs' of the Qualifying Round will qualify to the Final.

17 EUROPEAN UNDER 24 TEAM SPEEDWAY CHAMPIONSHIP

17.1 General Competition for National Teams.

Teams from different nations will compete in each event. The participating teams are divided into a Qualifying Round and a Final according to the decision of the FIM Europe TRC, with four teams competing at each event.

If the situation arises where a team – or teams – is missing in Qualifying Round, then if time allows the TRC, or the TRC Chairman can approve the participation of a mixed team (or teams), whose riders belong to different FMN's. The points scored by the additional team will count towards the results of the race and the additional team will be classified in the final championship result. Riders of this team must be granted starting permission for the event from their respective FMN's.

An organiser staging an event of this championship is guaranteed a place for its national team to compete in that particular event.

The winning and the 2nd teams of the Qualifying Round will qualify through to the Final, together with teams nominated by the TRC (the FMNR of the Final team being one of them + the best team according to the previous year's ranking).

If, in the Qualifying Round there is a tie for the qualifying place to the Final, there will be an additional heat to resolve the tie – refer to article **27.2**.

17.2 Participants

The riders of each team must be of the same nationality as the FMN that has nominated them (with exceptions allowed as per article 17.1 above).

The limit for the minimum age (16 years) starts on the date of the rider's birthday and the limit for the maximum age (24 years) finishes at the end of the year in which the rider reaches their 24th birthday.

17.3 Team Composition

The four competing teams consist of five riders: four riders having programmed rides and the fifth rider being a substitute (this is not compulsory but strongly recommended), as follows:

Team A	(RED helmet colour)	No's	1	2	3	4	17 (substitute)
Team B	(BLUE helmet colour)	No's	5	6	7	8	18 (substitute)
Team C	(WHITE helmet colour)	No's	9	10	11	12	19 (substitute)
Team D	(YELLOW helmet colour)	No's	13	14	15	16	20 (substitute)

17.4 Substitute Riders

The substitute rider may take the place of any programmed rider at any time, within the maximum number of permitted heats (five heats) when decided by the Team Manager.

There will be no tactical substitute rider or Joker rule for this championship.

(Continued over the page)

17.5 Briefing Sessions

It is strongly recommended that Federations competing in this event send a Team Manager to oversee their riders and to attend the official Briefing sessions. Team Managers, nominated, and licensed officials (not the competitors) must attend the Briefing sessions (as presented by the Jury President, Referee, and the Clerk of the Course). It is the responsibility of the Team Managers to then brief their riders of any information that is relevant to the smooth running of the event (timings for practice, alcohol breath testing, arrangements for the rider's presentation etc.).

17.6 Practice

If practice is planned on the same day as the event, then it must be scheduled a minimum of three hours prior to the first heat.

If practice and the event are staged on the same day, one practice session will be planned where each rider will have two practice runs.

If practice and the event are scheduled on TWO CONSECUTIVE DAYS, two practice sessions will take place, where each rider will have two practice runs in each session.

Teams may have a maximum of four riders participating in each practice session – in line with the current 'FIME Official Practice Schedule'

Each practice session will be two minutes long, as determined by the Referee.

For this competition, scheduled practice may be replaced by a 'Warm-Up' session, which is subject to the approval of the TRC Chairman prior to the approval of the Supplementary Regulations for the event.

The 'Warm-Up' session must be scheduled no later than 90 minutes prior to the first heat.

(Continued over the page)

17.7 Race Format

Heat No.	Gate 1 (inside)	Gate 2	Gate 3	Gate 4 (outside)
Riders' Starting Numbers				
1	12	5	4	14
2	6	3	13	11
3	2	9	8	15
4	7	1	16	10
5	9	16	6	4
6	3	10	15	5
7	13	12	7	2
8	11	14	1	8
9	8	4	10	13
10	14	7	9	3
11	5	11	2	16
12	15	6	12	1
INTERVAL				
13	16	8	3	12
14	4	15	11	7
15	10	2	14	6
16	1	13	5	9
17	4 th A	4 th B	4 th C	4 th D
18	3 rd B	3 rd C	3 rd D	3 rd A
19	2 nd C	2 nd D	2 nd A	2 nd B
20	1 st D	1 st A	1 st B	1 st C

After Heat 16, the points scored will be taken into account for riders nominated for Heats 17, 18, 19 and 20.

In the situation of riders from the same team being tied on points, the Team Manager will determine which rider will ride in which heat.

The rider nominated as substitute will be the substitute rider for the whole meeting. He is not classified after sixteen heats, but he is entitled to race in a maximum of five heats in the meeting.

Ties (between teams) – in the event of a tie, refer to article **27** 'Ties' further within these rules.

The minimum number of heats for the results of the event to be confirmed is twelve.

18 EUROPEAN INDIVIDUAL GRASS TRACK CHAMPIONSHIP

18.1 General

18.1.1 Event Format

The competition is for Individual riders **and will consist of a Grass Track 'Challenge' and one 'Final' event.**

All events will consist of eighteen riders, (plus two Track Reserves).

An organiser may apply to the FIME Track Racing Commission (FIME TRC), to stage a round of the European Individual and Sidecar Championship on the same day (i.e. a 'double event').

However if an organiser applies to stage a 'double event', then they will NOT be able to incorporate any National/additional heats into the meeting.

18.1.2 Additional Protective Devices (APD's) and Track Safety Fencing

Tracks used for FIME Grass Track championship events, must comply with the current FIM Standards for Track Racing (STRC).

From 2026 the use of FIM homologated APD's (air type fences), is compulsory at all FIME Grass Track and Sidecar Racing championship events.

In addition 'flexible sections' of the safety fence must be provided on the exit of bends 2 and 4. These requirements must also be provided for FIME race meetings held on 'temporary tracks'

18.1.3 Support/Additional Races

In an FIME championship event where additional 'Support/Additional' heats are incorporated; a maximum of ten additional heats would be acceptable for a non-televised event.

When submitting the draft SR's to the TRC for approval, the organiser must also submit a draft race schedule – containing a list of all planned races (including any additional heats) for the event. This list will be reviewed and confirmed by the TRC Chairman although it may be subject to alteration.

However if the event is being filmed/televised, then NO additional heats may be staged during the European Grass Track Championship event. Nevertheless, additional heats may be staged following the completion of the European Championship races and the winner's prize giving ceremony. In this situation, the draft race schedule (referred to in the preceding paragraph), must show that the additional heats will be staged following the completion of the European Championship event and the winner's prize giving ceremony.

If due to circumstances on the day of the event, the programme needs to be condensed, then the International Jury may take the decision to reduce or delete some or all of the additional heats.

18.1.4 Riding/Start Numbers

Riders competing in the European Individual Grass Track Championship, may apply to use their own 'personal' racing number on their race suit/race jacket and motorcycle.

They may choose any riding number with a maximum of three digits, provided that it has not been previously allocated to another rider – and the number does not start with a 0 (zero). Riding numbers 1 to 23 are reserved for the use of FIME only.

To request a specific 'personal riding number', the rider must apply to the FIME TRC when they submit their entry form for a European Grass Track Championship event

Should more than one rider request the same 'personal racing number', then preference will be given to the rider who has a history of using this number regularly in previous seasons or at a number of previous events. If the situation can still not be agreed, then the riding number will be allocated to the rider with the higher-ranking position in the previous year's European championship results.

Riders who have not requested a 'personal' riding number within the deadline will be issued one by the TRC.

In each European Grass Track Championship event, riding numbers 19 and 20 will be allocated to the Track Reserve riders.

18.1.5 Race Jackets

If race jackets are NOT provided by the organising club (as identified in the Supplementary Regulations), then personal race jackets DO NOT have to be worn.

However, the rider must clearly display his/her FMN's national flag on the front of their race suit with their riding/**start** number clearly visible on the back.

The riding number must be positioned so that it is easily recognisable by the Referee and spectators during both practice and racing – refer to FIM Track Racing Appendices article 5.1

If a race suit is NOT designed to meet this requirement, then the rider must provide and wear his own race jacket incorporating the correct positioning and minimum sizes of **both the** national flag and riding/**start** number.

Race jackets must be worn for the duration of the event (practice, Rider's presentation, press/TV interviews as well as the Winner's Prize Giving Ceremony).

18.2 Practice

18.2.1 One Day Event

It is strongly recommended that when an event is being staged on a Grass Track circuit, **in addition to the practice session allocated to riders competing in any 'additional heats', a maximum of four additional heats (if approved in advance as in Art. 18.1.3.) may be held PRIOR TO the commencement of** the FIME championship practice.

NOTE: this arrangement is requested to ensure that any 'green' grass is removed from the race circuit prior to the staging of the FIM European Championship practice, but without damaging the track surface..

If practice is planned on the same day as the event, then it must be scheduled a minimum of three hours prior to the first heat.

(Continued over the page)

In order to organise practice in line with the FIME practice schedule, it is strongly recommended that the club/organiser allows two hours for the practice session to be staged. This will ensure riders have sufficient time to make any adjustments between their scheduled practice sessions **as well as allowing sufficient time for any track grading/maintenance that may be required.**

Riders will be divided into three equal groups. Each group will be given three free practice sessions of two minutes per session – in line with the current 'FIME (Individual) Grass Track Official Practice Schedule'.

A maximum of six riders will be allowed on the track at any one time.

Following the last session of free practice, a further session of **one session of 'Start' practice** (followed by two laps) must be provided.

18.2.2 Two Day Event

If an event is staged over two days, and practice is held the day before, a 'Warm Up' session should be organised on the day of the event.

The 'Warm Up' session will comprise of one three-minute session per rider, up to a maximum of six riders per session.

Groups of riders for the 'Warm Up' session will usually be in riding number order, or as per the groups organised for the previous day's practice session.

18.2.3 Combined FIME Individual and Sidecar Championship Event.

If the event is a combined FIME Individual and Sidecar championship event, then each group will be given two free practice sessions of two minutes per session – in line with the current 'FIME (Individual) Grass Track Official Practice Schedule'.

Following the last session of free practice, a further session of one 'Start' practice (followed by two laps) must be provided.

18.3 Race Format and Participants

18.3.1 European Individual Grass Track 'Challenge'

The Challenge must be organised with twelve heats followed by a 'C', 'B' and 'A' Final – in which six riders will participate in each race.

All races will consist of four laps.

Riders competing in the Grass Track 'Challenge' will be nominated by their respective FMN's based on the allocation of places as confirmed by the FIME TRC.

A nominated rider who is unable to compete in the Grass Track Challenge will be replaced by a substitute rider nominated by their FMN – should time allow.

The two Track Reserves will be nominated by the FMNR hosting the event.

NOTE: The Track Reserves do not have to be riders from the host FMNR, the FMNR may nominate a Track reserve(s) from another FMN, so long as the FMN involved confirms their agreement.

(Continued over the page)

Heats 1 to 12 are called ‘Qualifying Heats’ and must be conducted according to the following schedule of heats:

Helmet Colour	Red (inside)	Blue	White	Yellow	Green	Black & White (outside)
Heat No.	Riders’ Starting Numbers					
1	1	2	3	4	5	6
2	7	8	9	10	11	12
3	13	14	15	16	17	18
4	3	17	1	15	8	10
5	16	12	5	2	9	13
6	4	6	11	18	14	7
7	18	15	7	12	10	1
8	2	13	17	11	16	4
9	5	9	14	3	6	8
10	10	11	18	13	3	9
11	6	16	8	1	2	15
12	17	7	4	5	12	14

After Heat 12, there will be an ‘Intermediate Classification’ for places 1 to 18 according to the total points scored by each rider during the Qualifying Heats.

From the ‘Intermediate Classification’ riders will then be placed into one of the last three ‘Final Heats’ (‘C’, ‘B’ and ‘A’).

NOTE: Riders positioned 17th and 18th (following the ‘Intermediate Classification’) will be classified in the overall official results according to the points they scored during the ‘Qualifying Heats’.

(Continued over the page)

	Allocation of riders' places in the 'C', 'B' and 'A' Finals following confirmation of the Intermediate Classification					
Final 'C'	11 th	12 th	13 th	14 th	15 th	16 th
Final 'B'	5 th	6 th	7 th	8 th	9 th	10 th
Final 'A'	1 st	2 nd	3 rd	4 th	1 st from 'B' Final	2 nd from 'B' Final

A rider's gate position ballot must be arranged following the conclusion of the 'Intermediate Classification', and the riders who have qualified for these 'Final' heats, will select their gate positions in the presence of the Clerk of the Course and the Jury President

The highest point's scorer who has qualified in each 'Final' heat will have the first choice of gate position; the 2nd highest scorer has the second choice and so on.

Riders placed 1st and 2nd in the 'B' Final have the 5th and 6th choice of gate position in the 'A' Final.

Final Heats – in order for the two riders who have qualified from the 'B' Final through to the 'A' Final, the Referee MUST allow sufficient time (prior to the commencement of the 'A' Final) for the two riders to prepare their motorcycles and personal equipment.

The sequence of the Final heats will be as follows: FIRST THE 'B' FINAL, then the 'C' Final, followed by the 'A' Final.

The 'A' Final should ideally be the last race of the day.

(Continued over the page)

FINAL	Rider's finishing position in the respective Final	Rider's OVERALL position in the meeting
'A'	1 st	1 st
	2 nd	2 nd
	3 rd	3 rd
	4 th	4 th
	5 th	5 th
	6 th	6 th
'B'	3 rd	7 th
	4 th	8 th
	5 th	9 th
	6 th	10 th
'C'	1 st	11 th
	2 nd	12 th
	3 rd	13 th
	4 th	14 th
	5 th	15 th
	6 th	16 th
17 th after all points scored following the Qualifying Heats		
18 th after all points scored following the Qualifying Heats		

The finishing order of places 1st to 6th in this event will be decided by the position of the rider in the 'A' Final – irrespective of the points scored during the event.

The overall position for places 7th to 16th in this event are decided by the position of the rider in the Final heat in which they rode ('C' or 'B') – again irrespective of the points scored during the event.

Riders who cannot take part in any Final heat are considered to have finished last in that Final.

Riders who cannot finish any Final heat due to a fall, engine failure etc. will be classified according to distance they rode before the stoppage (the longer the duration before the stoppage, the better the position).

If any Final heat is re-run, and a number of riders are disqualified from that Final heat – and there is then a tie between them – then the tie will be resolved following the rider's position as identified in the 'Intermediate Classification' (following heat 12).

The minimum number of heats for the results of the event to be confirmed is nine.

In the situation of the meeting being abandoned before the full programme has been completed, the classification after either Heat 9 or 12 (whichever applies) will be the Final result of the event.

Ties – in the event of a tie, refer to article 27 'Ties' further within these rules

(Continued over the page)

18.3.3 European Individual Grass Track Championship ‘Final’

The Championship ‘Final’ must be organised with twelve heats followed by a ‘C’, ‘B’ and ‘A’ Final – in which six riders will participate in each race.

All races will consist of four laps.

Eighteen riders (plus two Track Reserves) will compete in event.

These selection of riders will be as follows:

- 1st, 2nd and 3rd placed riders from the previous year’s FIME Europe Individual Grass Track Championship official results.

NOTE: If any of the previous year’s top three European championship riders’ teams are unable to complete in the current Individual ‘Final’ then the vacant place will be taken by the first available rider from the Substitute Riders list – if time allows.

- Top eleven (11) point scoring riders from the FIME Europe Grass Track ‘Challenge’.
- One (1) rider nominated by the FMNR hosting the FIME Europe Championship Final.
- A maximum of three (3) Wild Card riders nominated by the FIME TRC.

NOTE: The Wild Card places will be nominated once the Grass Track ‘Challenge’ has been completed.

- In the situation of less than three Wild Cards being nominated by the TRC, any spare Wild Card places will be filled by the next highest placed riders from the Grass Track ‘Challenge’.
- Two (2) Track Reserves will be nominated by the host FMNR.

NOTE: The Track Reserves do not have to be riders from the host FMNR, the FMNR may nominate a Track reserve(s) from another FMN, so long as the FMN involved confirms their agreement.

- In addition to the above, a list of ‘Substitute’ riders will be prepared by the FIME TRC

Should a rider who has qualified from the Grass Track ‘Challenge’ become injured and cannot compete in the Championship Final, then the injured rider’s place will be taken by the first available rider from the Substitute Riders list – if time allows.

Heats 1 to 12 are called ‘Qualifying Heats’ and must be conducted according to the following schedule of heats:

(Continued over the page)

Helmet Colour	Red (inside)	Blue	White	Yellow	Green	Black & White (outside)
Heat No.	Riders' Starting Numbers					
1	1	2	3	4	5	6
2	7	8	9	10	11	12
3	13	14	15	16	17	18
4	3	17	1	15	8	10
5	16	12	5	2	9	13
6	4	6	11	18	14	7
7	18	15	7	12	10	1
8	2	13	17	11	16	4
9	5	9	14	3	6	8
10	10	11	18	13	3	9
11	6	16	8	1	2	15
12	17	7	4	5	12	14

After Heat 12, there will be an 'Intermediate Classification' for places 1 to 18 according to the total points each rider scored during the Qualifying Heats.

From the 'Intermediate Classification' riders will then be placed into one of the last three 'Final Heats' ('C', 'B' and 'A').

NOTE: Riders positioned 17th and 18th (following the 'Intermediate Classification'), will be classified in the overall official results according to the points they scored during the 'Qualifying Heats' only.

	Allocation of riders' places in the 'C', 'B' and 'A' Finals following confirmation of the Intermediate Classification					
Final 'C'	11 th	12 th	13 th	14 th	15 th	16 th
Final 'B'	5 th	6 th	7 th	8 th	9 th	10 th
Final 'A'	1 st	2 nd	3 rd	4 th	1 st to 'B' Final	2 nd to 'B' Final

A rider's gate position ballot must be arranged following the conclusion of the 'Intermediate Classification', and the riders who have qualified for these 'Final Heats', will select their gate positions in the presence of the Clerk of the Course and either the Referee and/or the Jury President.

(Continued over the page)

The highest point's scorer who has qualified in each 'Final Heat' will have the first choice of gate position; the 2nd highest scorer has the second choice and so on.

Riders placed 1st and 2nd in the 'B' Final have the 5th and 6th choice of gate position in the 'A' Final.

Final Heats – in order for the two riders who have qualified from the 'B' Final through to the 'A' Final, the Referee **MUST** allow sufficient time (prior to the commencement of the 'A' Final) for the two riders to prepare their motorcycles and personal equipment.

The sequence of the Final heats will be as follows: **FIRST THE 'B' FINAL**, then the 'C' Final, followed by the 'A' Final.

The 'A' Final should ideally be the last race of the day.

FINAL	Rider's finishing position in the respective Final	Rider's OVERALL position in the meeting
'A'	1 st	1 st
	2 nd	2 nd
	3 rd	3 rd
	4 th	4 th
	5 th	5 th
	6 th	6 th
'B'	3 rd	7 th
	4 th	8 th
	5 th	9 th
	6 th	10 th
'C'	1 st	11 th
	2 nd	12 th
	3 rd	13 th
	4 th	14 th
	5 th	15 th
	6 th	16 th
17 th after all points scored following the Qualifying Heats		
18 th after all points scored following the Qualifying Heats		

The finishing order of places 1st to 6th in this event will be decided by the position of the rider in the 'A' Final – irrespective of the points scored during the event.

The overall position for places 7th to 16th in this event are decided by the position of the rider in the Final heat in which they rode ('C' or 'B') – again irrespective of the points scored during the event.

Riders who cannot take part in any Final heat are considered to have finished last in that Final.

(Continued over the page)

Riders who cannot finish any Final heat due to a fall, engine failure etc. will be classified according to distance they rode before the stoppage (the longer the duration before the stoppage, the better the position).

If any Final heat is re-run, and a number of riders are disqualified from that Final heat – and there is then a tie between them – then the tie will be resolved following the rider's position as identified in the 'Intermediate Classification' (following Heat 12).

The minimum number of heats for the results of the event to be confirmed is nine.

In the situation of the meeting being abandoned before the full programme has been completed, the classification after either Heat 9 or 12 (whichever applies) will be the final result of the event.

19 EUROPEAN SIDECAR CHAMPIONSHIP

19.1 General

19.1.1 Event Format

The competition is for Sidecar teams **and will consist of a Sidecar 'Challenge' and one 'Final' event.**

Both events will consist of twelve Sidecar teams (or outfits) plus two **Track Reserve** Sidecar teams **who** will compete in each event.

An organiser may apply to the FIME Track Racing Commission (FIME TRC), to stage a round of the European Sidecar and Individual Championship on the same day (i.e. a 'double event').

However if an organiser applies to stage a 'double event', then they will NOT be able to incorporate any National/additional heats into the meeting.

19.1.2 Definition of a Team

The Sidecar rider and passenger enter the championships as a 'team' and should participate together throughout all rounds of the competition.

A change of passenger (e.g. someone different to the original passenger qualifying into the Final), can only be approved by the TRC Chairman (or his Deputy), in exceptional circumstances (e.g. **injury, retirement from the sport or similar exceptional situations**).

Once such permission has been given, the original passenger cannot participate in any FIME Sidecar championship event for the rest of the season.

Note: The Sidecar rider is the nominated representative of the Sidecar team. Although the rider will be nominated by his/her respective federation, and would hold a national licence of that federation, his/her passport may be from a different country (e.g. a German Sidecar rider holding a Dutch licence and nominated to the European championships by the KNMV).

In this example, if the rider was to win either the Sidecar 'Challenge', or the European Final, then the GERMAN national anthem should be played during the winner's prize giving ceremony (e.g. the national anthem of his/her country of origin).

19.1.3 Technical Specification

For further information regarding the technical specification for 500cc Sidecar's refer to **34**. Appendix 1 at the end of this document.

The use of rev limiters (as stipulated within the FIM Track Racing Technical rules for 500cc engines) is compulsory.

19.1.4 Additional Protective Devices (APD's) and Track Safety Fencing

Tracks used for FIME Grass Track championship events, must comply with the current FIM Standards for Track Racing (STRC).

From 2026 the use of FIM homologated APD's (air type fences), is compulsory at all FIME Grass Track and Sidecar Racing championship events.

(Continued over the page)

In addition 'flexible sections' of the safety fence must be provided on the exit of bends 2 and 4. These requirements must also be provided for FIME race meetings held on 'temporary tracks'

19.1.5 Support/Additional Races

In an FIME championship event where additional 'Support/Additional heats are incorporated a maximum of ten support races would be acceptable for a non-televised event.

When submitting the draft SR's to the TRC for approval, the organiser must also submit a draft race schedule – containing a list of all planned races (including any additional heats) for the event. This list will be reviewed and confirmed by the TRC Chairman although it may be subject to alteration.

However if the event is being filmed/televised, then NO additional heats may be staged during the European Sidecar Championship event. Nevertheless, additional heats may be staged following the completion of the European Championship races and the winner's prize giving ceremony. In this situation, the draft race schedule (referred to in the preceding paragraph), must show that the additional heats will be staged following the completion of the European Sidecar Championship event and the winner's prize giving ceremony.

If due to circumstances on the day of the event, the programme needs to be condensed, then the International Jury may take the decision to reduce or delete some or all of the additional heats.

19.1.6 Riding/Start Numbers

Riders competing in the European Sidecar Championship, may apply to use their own 'personal' racing number on their race suit/race jacket and motorcycle.

They may choose any riding number with a maximum of three digits, provided that it has not been previously allocated to another rider – and the number does not start with a 0 (zero). Riding numbers 1 to 14 are reserved for the use of FIME only.

To request a specific 'personal riding number', the Sidecar team must apply to the FIME TRC when they submit their entry form for a European Sidecar Championship event.

Should more than one Sidecar team request the same 'personal racing number', preference will be given to the team who has a history of using this number regularly in previous seasons or at a number of previous events. If the situation can still not be agreed, then the riding number will be allocated to the Sidecar team with the higher-ranking position in the previous year's European championship results.

Sidecar teams who have not requested a 'personal' riding number within the deadline will be issued one by the TRC.

In each European Sidecar Championship event, riding numbers 13 and 14 will be allocated to the Track Reserve riders.

(Continued over the page)

19.1.7 Race Jackets and Helmet Colours

If an organising club provides race jackets for the FIME championship event (as identified in the Supplementary Regulations), then the race jackets must be worn by BOTH the rider and passenger during the Rider's Presentation and the Winner's Prize Giving Ceremony - e.g. when the teams are not racing.

However, **for the duration of the event (practice, Rider's presentation, press/TV interviews as well as the Winner's Prize Giving Ceremony)**, the passenger of the Sidecar team MUST wear the organisers supplied race jacket.

If race jackets are NOT provided by the organising club (as identified in the Supplementary Regulations), then personal race jackets DO NOT have to be worn.

However, the rider (and passenger) must clearly display his/her FMN's national flag on the front of their race suit with their riding/start number clearly visible on the back. The riding number must be positioned so that it is easily recognisable by the Referee and spectators during both practice and racing – refer to FIM Track Racing Appendices article 5.1

If a race suit is NOT designed to meet this requirement, then the passenger must provide and wear his own race jacket incorporating the correct positioning and minimum sizes of both the national flag and riding/start number.

Both the rider and passenger must wear the allocated helmet colour when competing in a race.

19.2 Practice

19.2.1 One Day Event

It is strongly recommended that when an event is being staged on a Grass Track circuit, **in addition to the practice session allocated to riders competing in any 'additional heats' a maximum of four support races (if approved in advance as in Art. 19.1.5.) may be held PRIOR to the commencement of the FIME championship practice.**

NOTE: this requirement is requested to ensure that the 'green' grass is removed from the race circuit prior to the staging of the FIM Europe Sidecar practice, but without damaging the track surface.

If practice is planned on the same day as the event, then it must be scheduled a minimum of three hours prior to the first heat.

In order to organise practice in line with the FIME practice schedule, it is strongly recommended that the club/organiser allows one and a half hours for the practice session to be staged. This will ensure Sidecar teams have sufficient time to make any adjustments between their scheduled practice sessions, as well as allowing sufficient time for any track grading/**maintenance** that may be required.

(Continued over the page)

Sidecar teams will be divided into two equal groups. Each group will be given two free practice sessions of three minutes per session – in line with the current 'FIME (Sidecar) Grass Track Official Practice Schedule'.

A maximum of six Sidecars will be allowed on the track at any one time.

Following the last session of free practice, a further session of one session of 'Start' practice (followed by two laps) must be provided.

19.2.2 Two Day Event

If an event is staged over two days, and practice is held the day before, a 'Warm Up' session should be organised on the day of the event.

The 'Warm Up' session will comprise of one three-minute session per, up to a maximum of six Sidecar teams per session.

Groups of Sidecar teams for the 'Warm Up' session will usually be in riding number order, or as per the groups organised for the previous day's practice session.

19.2.3 Combined FIME Individual and Sidecar Championship Event

If the event is a combined FIME Individual and Sidecar championship event, then each group will be given two free practice sessions of **two** minutes per session – in line with the current 'FIME (Sidecar) Grass Track Official Practice Schedule'.

Following the last session of free practice, a further session of one 'Start' practice followed by two laps must be provided.

19.3 Race Format and Participants

19.3.1 FIME Europe Sidecar 'Challenge'

Ideally the Sidecar 'Challenge' should be organised with eight heats followed by a 'B' and 'A' Final – in which SIX Sidecar teams will participate in each race.

All races will consist of four laps

In situations where the track is not wide enough to accommodate six Sidecars, then a separate format is available for FOUR riders per heat (refer to 19.3.1.2 within these rules) – the minimum space allowed MUST be 2.5 metres per Sidecar outfit (minimum track width 15 metres).

Sidecar teams competing in the 'Challenge' will be nominated by their respective FMN's based on the allocation of places as confirmed by the FIME TRC.

A nominated Sidecar team who is unable to compete in the 'Challenge' will be replaced by a substitute Sidecar team nominated by their FMN – should time allow.

The two Track Reserves teams will be nominated by the FMNR hosting the event.

NOTE: The Track Reserves do not have to be riders from the host FMNR, the FMNR may nominate a Track reserve(s) from another FMN, so long as the FMN involved confirms their agreement.

(Continued over the page)

Heats 1 to 8 are called the 'Qualifying Heats' and must be conducted according to the following schedule of heats.

Helmet Colour	Red (inside)	Blue	White	Yellow	Green	Black & White (outside)
Heat No.	Sidecar Teams Starting Numbers					
1	1	2	3	4	5	6
2	7	8	9	10	11	12
3	5	4	8	3	12	11
4	6	7	2	1	10	9
5	4	1	12	7	9	8
6	2	11	10	5	6	3
7	3	5	11	9	7	1
8	12	10	6	8	2	4

After Heat 8, there will be an 'Intermediate Classification', for places 1 to 12 according to the total points scored by each Sidecar team during the Qualifying Heats.

From the 'Intermediate Classification' Sidecar teams will then be placed into one of the last two 'Final Heats' ('B' and 'A').

Note: Sidecar teams positioned 11th and 12th (following the 'Intermediate Classification') will be classified in the overall official results according to the points they scored during the 'Qualifying Heats'.

FINAL	Allocation of Sidecar teams places in the 'B' and 'A' Finals following completion of the Intermediate Classification					
'B'	5 th	6 th	7 th	8 th	9 th	10 th
'A'	1 st	2 nd	3 rd	4 th	1 st from B Final	2 nd from B Final

A rider's gate position ballot must be arranged following the conclusion of the 'Intermediate Classification', and the Sidecar teams who have qualified for these 'Final' heats, will select their gate positions in the presence of the Clerk of the Course and the Jury President.

The highest point's scoring Sidecar team who has qualified in each 'Final' heat will have the first choice of gate position; the 2nd highest scorer will have the second choice and so on.

(Continued over the page)

Sidecar teams placed 1st and 2nd in the 'B' Final will have the 5th and 6th choice of gate position in the 'A' Final.

Final Heats – in order for the two Sidecar teams who have qualified from the 'B' Final through to the 'A' Final, the Referee **MUST** allow sufficient time (prior to the commencement of the Sidecar 'A' Final) for the two teams to prepare their motorcycles and personal equipment.

The 'A' Final should ideally be the last race of the day.

FINAL	Sidecar teams finishing position in the respective Final	Rider's OVERALL position in the meeting
'A'	1 st	1 st
	2 nd	2 nd
	3 rd	3 rd
	4 th	4 th
	5 th	5 th
	6 th	6 th
'B'	3 rd	7 th
	4 th	8 th
	5 th	9 th
	6 th	10 th
11 th after all points scored following the Qualifying Heats		
12 th after all points scored following the Qualifying Heats		

The finishing order of places 1st to 6th in this event will be decided by the position of the Sidecar teams in the 'A' Final – irrespective of the points scored during the event.

The overall position for places 7th to 10th in this event are decided by the position of the Sidecar teams in the 'B' Final – again irrespective of the points scored during the event.

Sidecar teams who cannot take part in any Final are considered to have finished last in that Final.

Sidecar teams who cannot finish any Final heat because of a fall, engine failure etc. will be classified according to distance they rode before the stoppage (the longer the duration before the stoppage, the better the position).

(Continued over the page)

If any Final heat is re-run, and a number of Sidecar teams are disqualified from that Final heat – and there is then a tie between them – then the tie will be resolved following the rider's position as identified in the 'Intermediate Classification' (following heat 8)

In order to be classified as an 'official finisher' in a race, both the Sidecar rider and passenger must be in contact with the motorcycle when crossing the finishing line.

The minimum number of heats for the results of the meeting to be confirmed for six Sidecars event is heat 6.

In the situation of the event being abandoned before the full programme has been completed, the classification for six Sidecars per event is either after Heat 6 or 8 (whichever applies) will be the Final result of the event.

Ties – in the event of a tie, refer to article 27 'Ties' further within these rules.

The top six (6) Sidecar teams from the 'Final Classification' of the Sidecar Challenge will qualify through to the Championship Final event with places 7 and 8 in the Final Classification being the Championship Final event Track Reserves.

19.3.1.1 FOUR Sidecars per Heat

For tracks where four Sidecar teams compete per heat, the following rules must be followed.

The event should be organised with twelve heats followed by a 'C', 'B' and 'A' Final – in which FOUR Sidecar teams will participate in each race.

Heats 1 to 12 are called 'Qualifying Heats' and must be conducted according to the following schedule of heats.

(Continued over the page)

Helmet Colour	Red (inside)	Blue	White	Yellow (outside)
Heat No.	Sidecar Teams Starting Numbers			
1	1	2	3	4
2	6	5	7	8
3	9	10	11	12
4	5	9	1	11
5	8	3	10	6
6	2	4	12	7
7	11	1	6	3
8	10	8	5	2
9	7	12	4	9
10	12	7	8	1
11	11	6	2	9
12	3	10	4	5

After Heat 12, there will be an 'Intermediate Classification', for places 1 to 12 according to the total points each Sidecar team scored during these 'Qualifying Heats'.

From the 'Intermediate Classification' Sidecar teams will then be placed into one of the last three Final Heats ('C', 'B' and 'A').

Note: Sidecar teams positioned 11th and 12th (following the 'Intermediate Classification') will be classified in the overall result according to the points they scored during the 'Qualifying Heats' only.

FINAL	Sidecar teams' positions following COMPLETION of the Qualifying Heats			
'C'	7 th	8 th	9 th	10 th
'B'	3 rd	4 th	5 th	6 th
'A'	1 st	2 nd	1 st from B Final	2 nd from B Final

A rider's gate position ballot must be arranged following the conclusion of the 'Intermediate Classification', and the Sidecar teams who have qualified for these Final Heats, will select their gate positions in the presence of the Clerk of the Course and either the Referee and/or the Jury President.

(Continued over the page)

The highest point's scorer who has qualified in each 'Final' will have the first choice of gate position; the 2nd highest scorer has the second choice and so on.

Sidecar teams placed 1st and 2nd in the 'B' Final will have the 3rd and 4th choice of gate position in the 'A' Final.

Final Heats – in order for the two Sidecar teams who have qualified from the 'B' Final through to the 'A' Final, **the Referee MUST allow sufficient time (prior to the commencement of the 'A' Final) for the two teams to prepare their motorcycles and personal equipment.**

The sequence of the Final **heats** will be as follows: FIRST THE 'B' FINAL, then the 'C' Final, followed by the 'A' Final.

The 'A' Final should ideally be the last race of the day

FINAL	Sidecar's teams finishing position in the respective Final	Sidecar's team OVERALL position in the meeting
'A'	1 st	1 st
	2 nd	2 nd
	3 rd	3 rd
	4 th	4 th
'B'	3 rd	5 th
	4 th	6 th
'C'	1 st	7 th
	2 nd	8 th
	3 rd	9 th
	4 th	10 th
11 th after all points scored following the Qualifying Heats		
12 th after all points scored following the Qualifying Heats		

The finishing order of places 1st to 4th in this event will be decided by the position of the Sidecar teams in the 'A' Final – irrespective of the points scored during the event.

The overall position for places 5th to 10th in this event are decided by the position of the Sidecar teams in the Final in which they rode ('C' or 'B') – again irrespective of the points scored during the event

Sidecar teams who cannot take part in any Final **heat** are considered to have finished last in that Final.

Sidecar teams who cannot finish any Final **heat** because of a fall, engine failure etc. will be classified according to distance they rode before the stoppage (the longer the duration before the stoppage, the better the position).

(Continued over the page)

If any Final **heat** is re-run, and a number of Sidecar teams are disqualified from that Final – and there is then a tie between them – then the tie will be resolved following the rider's position as identified in the 'Intermediate Classification' (following Heat 12).

In order to be classified as an official finisher in a race, both the Sidecar rider and passenger must be in contact with the motorcycle when crossing the finishing line.

The minimum number of heats for the results of the meeting to be confirmed for four Sidecars per race is Heat 9.

In the situation of the event being abandoned before the full programme has been completed, the classification for four Sidecars per race is either after Heat 9 or 12 (whichever applies) will be the Final result of the event.

Ties – in the event of a tie, refer to article **27 'Ties'** further within these rules.

The top six (6) Sidecar teams from the 'Final Classification' of the Sidecar 'Challenge' will qualify through to the Sidecar Championship 'Final' event with places 7 and 8 in the Final Classification being the 'Final' event Track Reserves.

19.3.2 European Sidecar 'Final'

19.3.2.1 The 'Final' event must be organised with eight heats followed by a 'B' and 'A' Final – in which SIX Sidecar teams will participate in each race.

All races will consist of four laps.

Twelve riders plus two Track Reserves will compete in the 'Final' event.

The format for the heats, plus the 'B' and 'A' final will be run as per the details stipulated in the Sidecar 'Challenge' (6 sidecar teams per heat).

These selection of Sidecar teams will be as follows:

- 1st, 2nd and 3rd placed Sidecar teams from the previous European Sidecar Final official results.**

NOTE: If any of the previous year's top three Sidecar teams are unable to complete in the current Sidecar 'Final' then the vacant place will be taken by the next team from the current years Sidecar 'Challenge' final classification.

- Top six (6) point scoring Sidecar teams from the FIME Europe Sidecar 'Challenge'.**
- One (1) Sidecar team nominated by the FMNR hosting the FIME Sidecar Championship Final.**
- A maximum of two (2) Wild Card Sidecar teams nominated by the FIME TRC.**

NOTE: The Wild Card places will be nominated once the Sidecar 'Challenge' has been completed

- Two (2) Track Reserves will be nominated by the host FMNR.

NOTE: The Track Reserves do not have to be Sidecar teams from the host FMNR, the FMNR may nominate a Track reserve team(s) from another FMN, so long as the FMN involved confirms their agreement.

Should a Sidecar team who has qualified from the 'Challenge' become injured and cannot compete in the Championship 'Final' event, then, the injured Sidecar teams place will be taken by the first nominated Track Reserve at the 'Final' round.

The second nominated Track Reserve team will be promoted to 'First' Track Reserve and if time allows the highest non-qualified Sidecar team from the Sidecar 'Challenge' will be promoted to 'Second' Track reserve team at the Championship 'Final' event.

However once the official FIME Start List has been issued by the TRC, and a listed Sidecar team is then unable to compete in the Championship 'Final' event, then the FMNR hosting the 'Final' round will nominate the Track Reserve (as per article 1.4 Substitute Riders)

The finishing order of places 1st to 6th in this event will be decided by the position of the Sidecar teams in the 'A' Final – irrespective of the points scored during the event.

The overall position for places 7th to 10th in this event are decided by the position of the Sidecar teams in the 'B' Final – again irrespective of the points scored during the event.

FINAL	Sidecar teams finishing position in the respective Final	Rider's OVERALL position in the meeting
'A'	1 st	1 st
	2 nd	2 nd
	3 rd	3 rd
	4 th	4 th
	5 th	5 th
	6 th	6 th
'B'	3 rd	7 th
	4 th	8 th
	5 th	9 th
	6 th	10 th
11 th after all points scored following the Qualifying Heats		
12 th after all points scored following the Qualifying Heats		

Sidecar teams who cannot take part in either the 'B' or 'A' Final are considered to have finished last in that Final.

Sidecar teams who cannot finish in either the 'B' or 'A' Final because of a fall, engine failure etc. will be classified according to distance they rode before the stoppage (the longer the duration before the stoppage, the better the position).

If any Final is re-run, and a number of Sidecar teams are disqualified from that Final – and there is then a tie between them – then the tie will be resolved following the rider's position as identified in the 'Intermediate Classification' (following Heat 8).

In order to be classified as an official finisher in a race, both the Sidecar rider and passenger must be in contact with the motorcycle when crossing the finishing line.

The minimum number of heats for the results of the meeting to be confirmed for six Sidecars per race is heat 6.

In the situation of the event being abandoned before the full programme has been completed, the classification for six Sidecars per race is either after Heat 6 or 8 (whichever applies) will be the final result of the event.

Ties – in the event of a tie, refer to article 27 'Ties' further within these rules.

19.3.2.2 FOUR Sidecars per Heat

For tracks where FOUR Sidecar teams compete per heat, the format for the heats, plus the 'C', 'B' and 'A' final will be run as per the details stipulated in 19.3.2.1 (Sidecar 'Challenge) – FOUR Sidecars Heat.

20 EUROPEAN INDIVIDUAL ICE SPEEDWAY CHAMPIONSHIP

20.1 General

Competition for individual riders: sixteen riders (plus two track reserve riders) will compete in each event.

20.2 Participants

For this championship, each FMN may only nominate its own riders. The number of riders from each FMN will be allocated by the FIM Europe TRC.

20.3 Practice

Practice is not compulsory for Ice Racing riders.

Practice must not be scheduled later than one day and not earlier than two days prior to racing.

A minimum practice of two sessions of two minutes per rider, plus a further two sessions of 'Start' practice, followed by one lap must be also provided, all as in line with the current 'FIME Official Practice Schedule'.

The practise may be replaced by a 'warm-up' which should start two hours before the first heat and each rider will be provided with one two-minute long session on the track without any starts.

20.4 Method of Running the Championship

20.4.1 Two Day Event

The championship consists of two consecutive racing days. Each day of the event is to be considered as a separate 'Final' Round.

The starting numbers for each 'Final' Round will be published before the event. Each day will be run according to the formula stipulated in article 20.4.2 (e.g. 20 'Qualifying' heats + the 'Last Chance' heat + the Final).

20.4.2 One Day Event

For a 'One Day' Final, the event will be organised in a 22-heat format: 20 'Qualifying' heats + a 'Last Chance' heat + the Final.

The format also applies to each day of a 'Two Day' event.

All heats will consist of four laps.

(Continued over the page)

Heats 1 – 20 – Qualifying Heats

Qualifying Heats Table – one day event or the first day of a ‘Two Day’ event

Helmet Colour	Red (inside)	Blue	White	Yellow (outside)

INTERVAL				
13	3	13	7	12
14	6	9	1	15
15	11	8	2	4
16	14	16	10	5
17	4	7	1	10
18	12	14	6	11
19	8	13	9	16
20	15	5	2	3

After heat 20 there will be an ‘Intermediate Classification’ according to the total race points each rider has scored during the qualifying heats.

In case of any ties on points in this classification, refer to article **27.1** ‘Ties’ points a. to d. should be used to resolve the tie.

The two best placed riders will qualify for the heat 22 (Final Heat). The riders placed 3rd – 6th will participate in heat 21 (‘Last Chance’ Heat). If a rider is unable to participate in the ‘Last Chance’ heat or in the Final heat, he CANNOT be replaced by another rider. He will be deemed as the last place finisher of that heat.

Heat 21 – ‘Last Chance’ Heat

The riders placed 3rd – 6th will participate in this heat. The winner and the runner up of this heat will qualify for the Heat 22 (Final Heat).

Riders’ gate positions will be chosen by the riders in the order determined by their position in the ‘Intermediate Classification’

(Continued over the page)

No points will be awarded in heat 21.

Heat 22 – Final Heat

Following the 'Intermediate Classification' (after heat 20), the two best placed riders, plus the winner and runner up of heat 21 (the 'Last Chance' Heat) will participate in the Final Heat.

Riders' starting gate positions will be chosen by the riders in the following order: 1st placed rider from the 'Intermediate Classification', then the 2nd placed rider from the 'Intermediate Classification', followed by the winner of the 'Last Chance' Heat, and finally the runner up of 'Last Chance' Heat.

The gate positions must be chosen in the presence of the Jury President.

20.5 Results

For a 'One Day' event and for each day of a 'Two Day' event the classification will be as follows:

Positions 1st – 4th in the final meeting classification will be according to the result of the Final Heat (Heat 22) – irrespective of the total race points scored (in the situation of a 'Two Day' event, riders also score points according to the position in the Final Heat: 3 points for 1st place, 2 points for 2nd place and so on).

After heat 21, the remaining riders will be classified for positions 5th to 18th according to the points they have scored after heat 20.

In the case of any ties, refer to article 25 entitled 'Ties' further within these rules.

If the meeting has to be abandoned for whatever reason before the full schedule of heats has been completed, the 'Intermediate Classification' – after either heat 12, 16 or 20 (depending on the number of heats completed) – will be confirmed as the final meeting result.

The Final classification for a 'Two Day' Final will be determined by the TOTAL NUMBER of points gained by the riders over both days.

In case of ties in the Final classification of a 'Two Day' Final For the first three places, a run-off should be held.

The starting positions for this additional heat should be balloted by the riders in the presence of the Jury President.

- For the other places, the better placed rider in the 'Day Two' (second day) final classification will be awarded the higher position in the Final championship classification.

21 EUROPEAN 85cc/190cc YOUTH SPEEDWAY CUP

21.1 General

The competition is for Individual riders: sixteen riders (plus two substitute riders) who will compete in one Final event. FIME homologated tracks for the 85cc class (refer to the FIM STRC rules), must be used for this competition.

21.2 Technical Requirements

Competitors will be allowed to use 85 cc motorcycles as specified in Art. 01.83 and 190 cc motorcycles as specified in Art. 01.87 of the FIM Technical Rules. Both types of motorcycles will compete in the competition together.

The merging of the two classes will only be allowed for the 2026 season and the arrangement then terminate at the end of 2026 season.

21.2 Participants

For this European Cup event, each FMN must nominate their own riders. The number of riders from each FMN will be allocated by the FIM Europe TRC to the Final event.

The limit for the minimum age (**TBC** years for riders on 85cc motorcycles and 11 years for riders on 190cc motorcycles), starts on the date of the rider's birthday and the limit for the maximum age (13 years for riders on 190cc motorcycles and 15 years for riders on 85cc motorcycles), finishes at the end of the year in which the competitor reaches their 13th/15th birthday.

21.3 Practice

Practice is compulsory for all riders.

If the practice is planned on the same day as the event, then it must be scheduled a minimum of three hours before the first heat.

Practice will consist of two sessions per rider – in line with the current 'FIME Official Practice Schedule'. Each session will be two minutes long, as determined by the Referee.

Once these two sessions have been completed, there will be a further practice session for all riders, of two practice starts (under the control of the Referee), followed by one lap.

During all practice sessions there will be a maximum of four riders on the track.

A rider is considered to have taken part in the practice once he/she has completed two laps.

21.4 Race Format

All heats will consist of four laps.

The Starting List for the Final meeting will be published by the TRC.

(Continued over the page)

The event is conducted according to the following schedule for 20 heats.

Helmet colour	Red (inside)	Blue	White	Yellow (outside)
Heat No	Riders' Starting Numbers			
1	1	2	3	4
2	5	7	6	8
3	10	11	9	12
4	15	14	16	13
5	13	1	5	9
6	14	10	2	6
7	11	15	7	3
8	4	8	12	16
9	6	16	1	11
10	12	5	15	2
11	8	9	3	14
12	13	4	10	7
13	7	12	14	1
14	2	13	8	11
15	16	3	10	5
16	9	6	4	15
17	1	8	15	10
18	9	2	7	16
19	3	12	13	6
20	5	14	11	6

If the event has to be abandoned for whatever reason before the full schedule of heats has been completed, the 'Intermediate Classification' – after either Heat 12 or 16 (depending on the number of heats completed) – will be confirmed as the final event result.

Ties – in the event of a tie, refer to article **27** 'Ties' further within these rules.

22 EUROPEAN 250cc YOUTH SPEEDWAY CHAMPIONSHIP

22.1 Participants

For this European Championship event, each FMN must nominate their own riders.

The number of riders from each FMN will be allocated to **One 'Challenge' and a Final. The FMNR of the Final will be allocated one place in the Final. Seven places in the Final will be allocated to Federations accordingly to the results of the previous year's championship.**

The **reserve places in the 'Challenge'** will be allocated to the FMNR hosting the event.

The limit for the minimum age for a rider is 13 years and commences on the date of the rider's 13th birthday. The limit for the maximum age of a rider is 16 years and finishes at the end of the year in which the rider reaches their 16th birthday.

22.2 Practice

Practice is compulsory for all riders

During all practice sessions there will be a maximum of four riders on the track.

If practice is planned on the same day as the event, then it must be scheduled a minimum of three hours prior to the first heat.

If two Semi Finals are planned to be staged on the same track during one day, the Track Racing Chairman can approve a different time schedule for these events – all of which will be stipulated in the events Supplementary Regulations

Practice will consist of two sessions per rider – in line with the current 'FIME Official Practice Schedule'. Each session will be two minutes long, as determined by the Referee.

Following the last session of free practice, there will be a further practice session for all riders, of one practice start (under the control of the Referee), followed by one lap.

A rider is considered to have taken part in the practice once he/she has completed two laps.

22.3 Race Format

The competition will consist of **a 'Challenge'** and a Final.

The eight best riders from the Challenge (a maximum of four from the same FMN), and two substitutes will qualify through to the Final.

A Rider Start List for the 'Final' event, (if staged at the same venue as the Semi Finals), will be prepared by a member of the FIM Europe TRC (e.g. Jury President, Jury President/Referee) and published prior to the start of the Final.

If the **'Challenge'** is staged on the same weekend and at the same venue as the Final, a Jury President and Referee will need to be appointed for both events.

(Continued over the page)

All heats will consist of four laps according to the 20-heat race format.

Helmet Colour	Red (inside)	Blue	White	Yellow (outside)
Heat No	Riders' Starting Numbers			
1	1	2	3	4
2	5	7	6	8
3	10	11	9	12
4	15	14	16	13
5	13	1	5	9
6	14	10	2	6
7	11	15	7	3
8	4	8	12	16
9	6	16	1	11
10	12	5	15	2
11	8	9	3	14
12	13	4	10	7
INTERVAL				
13	7	12	14	1
14	2	13	8	11
15	16	3	10	5
16	9	6	4	15
17	1	8	15	10
18	9	2	7	16
19	3	12	13	6
20	5	14	11	4

If the meeting has to be abandoned for whatever reason before the full schedule of heats has been completed, the 'Intermediate Classification' – after either Heat 12 or 16 (depending on the number of heats completed) – will be confirmed as the final event result.

Ties – in the event of a tie, refer to article **27** 'Ties' further within these rules.

22.4 Track Layout

Tracks for this event will be in accordance with the FIM Standards for Track Racing Circuits (article 79.3.2.1) for 250cc Speedway (e.g. 200 – 425 metres).

23 EUROPEAN 125cc YOUTH TRACK RACING CUP

23.1 General

A maximum of four riders will participate in each heat according to the pre-determined format.

23.2 Participants

For this European Cup event, each FMN must nominate their own riders.

The number of riders from each FMN will be allocated to the championship Final which will be run as one meeting for **20** riders according to the schedule described in article 23.5.

The two reserve rider's places in the Final will be allocated to the FMNR hosting the event.

The limit for the minimum age for a rider is **TBC** years and starts on the date of the rider's birthday. The limit for the maximum age of a rider is 16 years and finishes at the end of the year in which the rider reaches their 16th birthday.

23.3 Practice

Practice is compulsory for all riders. The practice will be run accordingly to article 8 of the FIM Track Racing Appendices.

If the practice is planned on the same day as the event, then it must be scheduled a minimum of three hours prior to the first heat.

A rider is considered to have taken part in the practice once he/she has completed two laps,

23.4 Technical Specification

The technical specification of the motorcycles should comply articles 01.84 of the FIM Technical Rules.

23.5 Race Format

The competition will be run accordingly to the Track Racing Appendices 7.B.

23.6 Ties

In the event of a tie, refer to article **27** 'Ties' further within these rules.

24 EUROPEAN 250cc PAIRS SPEEDWAY CHAMPIONSHIP

24.1 General

Competitions for National Pairs:

Seven Pairs' will compete in each 'Final' meeting. This championship competition consists of **one to** three 'Final' events with the accrued points scored by National Pairs. Following the last 'Final' event, the total points scored by each 'Pairs' team will decide the final classification.

Each 'Pair' consists of two scheduled riders + one substitute rider (this is not compulsory, but strongly recommended), who is entitled to race as many times as a scheduled rider. The line-up of a 'Pair' can be different at each 'Final' event.

The limit for the minimum age (13 years) commences on the date of the rider's birthday, and the limit for the maximum age (16 years), finishes at the end of the year in which the competitor reaches their 16th birthday.

If for whatever reason there will be less 'Pairs' for any 'Final' meeting, then following a decision of the TRC Chairman (or Vice Chairman in case of his absence), the event will be run according to an alternative system, which will be confirmed, or an additional pair will be created with riders of various nationalities (which will be classified in each meeting but not in the overall result of the Championship. However, the age limit for all competitors – as above – must be observed.

24.2 Participants

Each FMN may nominate one 'Pair'. The riders of a 'Pair' must have a passport, or a suitable form of identity issued by the country of the FMN who nominated the 'Pair'. Exceptions to this rule must be accepted and confirmed by the TRC.

24.3 Briefing Sessions

Team Managers nominated and licensed Officials (not the competitors) must attend the Briefing sessions (as presented by the Jury President, Referee, and the Clerk of the Course).

It is the responsibility of the Team Managers to then brief their riders of any information that is relevant to the smooth running of the event (timings for practice, alcohol breath testing, arrangements for the rider's presentation etc.)

24.4 Practice

Practice is compulsory for all riders.

If practice is planned on the same day as the event, practice must be scheduled a minimum of three hours prior to the first heat in line with the current 'FIME Official Practice Schedule'.

Each 'Pair's' team will have the opportunity to have one free practice session of two minutes.

A practice session with one start plus one lap (under the control of the Referee) must be provided for all riders.

(Continued over the page)

A rider is considered to have taken part in the practice once he/she has completed two laps.

Race Format for all 'Final' Events.

Each Final will be run as stipulated in article **28.1** further in these Rules.

Each 'Pair' will receive the following points to the classification of the championships accordingly to their place at each event:

1st place – **10** points

2nd place – **8** points

3rd place – **6** points

4th place – **4** points

5th place – **3** points

6th place – **2** points

7th place – **1** point

24.5 Final Classification of the Championship

The total amount of championship points (refer to article 24.5), scored by each 'Pair' in all 'Final' events will confirm the final classification of the 'Pairs' Championship competition.

In case of a tie for any of the first three places in the final classification of this competition (**applicable only when more than one Final has been staged**), then article **27.2.1** applies.

In all other cases the better position in the last 'Final' meeting equates to the higher position in the final overall classification.

25 EUROPEAN UNDER 24 INDIVIDUAL SPEEDWAY CUP

25.1 Participants

Competition for individual riders: sixteen riders (plus two substitute riders) will compete in a meeting.

For this championship, each FMN should nominate one rider. If the number of requested places from Federations is higher or less than sixteen riders required, then the TRC will decide on the line-up.

The limit for the minimum age starts on the date of the rider's 16th birthday and the limit for the maximum age (24 years), finishes at the end of the year in which the competitor reaches their 24th birthday.

The substitute riders for the Final will be two riders nominated by the FMNR.

The FMNR hosting the Final, will have at least one rider competing in the Final.

25.2 Practice

If practice is planned on the same day as the event, then it must be scheduled a minimum of three hours prior to the first heat.

Practice will consist of two sessions per rider – in line with the current 'FIME Official Practice Schedule'. Each session will be two minutes long, as determined by the Referee.

During all practice sessions there will be a maximum of four riders on the track.

25.3 Race Format

All heats will consist of four laps. The event will consist of Qualifying Heats, 'Last chance' heat and a Final Heat.

(Continued over the page)

Qualifying Heats Table

Helmet Colour	Red (inside)	Blue	White	Yellow (outside)
Heat No.	Riders' Starting Numbers			
1	1	2	3	4
2	5	7	6	8
3	10	11	9	12
4	15	14	16	13
5	13	1	5	9
6	14	10	2	6
7	11	15	7	3
8	4	8	12	16
9	6	16	1	11
10	12	5	15	2
11	8	9	3	14
12	13	4	10	7
INTERVAL				
13	7	12	14	1
14	2	13	8	11
15	16	3	10	5
16	9	6	4	15
17	1	8	15	10
18	9	2	7	16
19	3	12	13	6
20	5	14	11	4

After Heat 20 there will be an Intermediate Classification according to the total race points each rider has scored during the Qualifying Heats.

In case of any tie in the Intermediate Classification after Heat 20, article 27.1 applies.

The two best placed riders will qualify for the Heat 22 (Final Heat). The riders placed 3rd to 6th will participate in Heat 21 (Last Chance Heat). If a rider is not able to participate in the Last Chance Heat or in the Final Heat, he **CANNOT** be replaced by another rider. He will be deemed as the last place finisher of that heat.

Heat 21 Last Chance Heat

The riders placed 3rd – 6th will participate in this heat. The winner and the runner up of this heat will qualify for the Heat 22 (Final Heat).

(Continued over the page)

Riders' gate positions will be chosen by the riders in the order determined by their position in the Intermediate Classification. No points will be awarded in Heat 21.

Heat 22 'Final Heat'.

Following the Intermediate Classification (after Heat 20), the two best placed riders, plus the winner and runner up of Heat 21 (the Last Chance Heat) will participate in the 'Final Heat'.

Riders' gate positions will be chosen by the riders in the following order: 1st placed rider of the Intermediate Classification (1st choice), then the 2nd placed rider of Intermediate Classification (2nd choice), followed by the winner of the Last Chance Heat (3rd choice), and finally the runner up of Last Chance Heat.

25.4 Results

Position's 1st – 4th in the final event classification will be according to the result of the Final Heat (Heat 22) – irrespective of the total race points scored.

After Heat 21, the remaining riders will be classified for positions 5th to 18th according to the points they have scored after Heat 20

In the case of any ties, refer to section 27 'Ties' further within these rules.

If the meeting has to be abandoned for whatever reason before the full schedule of heats has been completed, the 'Intermediate Classification' – after either Heat 12, 16 or 20 (depending on the number of heats completed) – will be confirmed as the final event result.

26 EUROPEAN FLAT TRACK CUP

26.1 General

The competition is for twenty four riders who will compete in one Final event. Each heat will be limited to one class of motorcycles of the same group.

For this championship, each FMN must nominate their own riders but it is strongly recommended that those do not participate in the Flat Track World Championship.

The actual racing consists of a series of several heats, between four or more riders, referred to hereafter as rider(s), run on an oval track.

The FIM Track Racing Appendices apply to this Cup accordingly unless the regulations below state differently.

26.2 Riders

26.2.1 Age of riders

Licences for riders are issued for FIM Europe Flat Track Cup only when the minimum age of 16 years is reached.

The minimum age starts on the competitors' minimum age birthday.

For applicants aged over 50 years, please refer to the FIM Medical Code.

26.2.2 Licences

The riders must be holders of an appropriate and valid FIM Europe or FIM Track Racing licence to be allowed to take part in a FIM Europe Flat Track Cup event e.g.:

- Annual / One event FIM Europe Track Racing licence.**
- Annual FIM Track Racing World Championship licence.**
- Annual FIM Flat Track World Championship licence.**

26.2.3 Riding numbers

It is compulsory for every rider to have their personal riding number clearly visible on the back of their race wear.

The same riding number must be visible on the front and right side of the motorcycle with black numbers being mounted on a yellow background.

26.3 Tracks

Tracks used for a FIME Flat Track Cup event must be homologated by FIM Europe and have a valid FIM Europe Track licence

26.4 Motorcycles

Please refer to the FIM Flat Track World Championships Regulations reference Technical Rules Articles 1 – 25.

Note: the use of telemetry [reference Article 17], and number plate specification [Article 18], will be clarified the Supplementary Regulations of the event.

(Continued over the page)

26.5 Practice

Practice is compulsory and riders will be divided into groups of a maximum of eight riders per practice session.

Each group will be provided with two free sessions of four minutes duration.

26.6 Race Format

Number of riders in a heat:

- Qualifying heats – eight riders (eight laps)
- Last Chance heat – eight riders (five laps)
- Final heat – eight riders (ten laps)

Each rider will participate in four qualifying heats that will be run over a minimum of eight laps.

Row One – will be the Start/Finish line

Row Two – will be marked with a single line positioned eight metres behind the Start/Finish line

Format of the competition with twenty four riders:

	Heat 1	Heat 2	Heat 3	Heat 4	Heat 5	Heat 6	Heat 7	Heat 8	Heat 9	Heat 10	Heat 11	Heat 12	LC	FINAL
#1														
#2														
#3														
#4														
#5														
#6														
#7														
#8														
#9														
#10														
#11														
#12														
#13														
#14														
#15														
#16														
#17														
#18														

#19													
#20													
#21													
#22													
#23													
#24													

After Heat 12, riders will be classified according to the total number of points they have scored during the qualifying heats.

Riders classified on places 1st to 6th will qualify for the Final heat.

Riders classified on places 7th to 14th will qualify for the Last Chance heat. The first two riders in the Last Chance heat will qualify to compete in the Final.

26.7 Direction of Racing

All heats are run in an anticlockwise direction

26.8 Punctuality in Starting

The Referee must indicate the start of a 90 second period by means of a warning siren or bell that is audible in the pits area together with two flashing amber lights.

Should any of the riders not be ready to start, they can be positioned in the Penalty Lane or be disqualified at the sole discretion of the Referee.

26.9 Starts

Engines must be kept running, machines parallel with the inner edge of the track and front wheels not more than 10 cm from each row starting line.

The Referee – when satisfied that the riders are correctly positioned – must switch on the green light indicating that the start is imminent. After a pause long enough for the riders to fix their attention on the green light and are standing still, the Referee must switch off the green light that permitted the start.

26.9.1 False Starts

Any competitor who allows their motorcycle to move forward after the Referee has switched on the green light must start again from the Penalty Lane.

26.9.2 Penalty Lane

The Penalty Lane is positioned 15 metres back from the start/finish line and marked with a single line. A rider can be positioned in the Penalty Lane at the sole discretion of the Referee.

The first penalised rider will start on the outside line of the track (closest to the safety fence if one is in place).

If more riders are intended to start from the Penalty Lane, then they will be positioned in the chronological order they have been penalised, starting from the outside to the inside line of the track.

26.10 Race Stoppage

At the sole discretion of the Referee, any competitor who causes a race to be stopped will either be disqualified from the re-run or if reinstated will restart from the Penalty Lane.

In the case of a race stoppage:

Qualifying Heats (eight laps):

- Seven laps completed by all riders still under power: result to stand based on the positions at the time of the stoppage.
- Less than seven laps completed by all riders still under power: the whole heat must be re-run with the original starting positions.

Last Chance (five laps):

- Less than two laps completed by all riders still under power: the whole heat must be re-run with the original starting positions.
- Two or three laps completed by all riders still under power: the remaining laps of the heat must be re-run based on the positions at the time of the stoppage. Riders need to queue from the starting line.
 - The rider who was in first position at the time of the stoppage must choose to start inside or outside one metre between each other.
 - The rider who has been penalised for the last race stop two metres from the last rider.
 - If more than one rider has been penalised at the same time, they must start behind the last rider of the queue in the chronological order they were penalised.
- Four laps completed by all riders still under power: result to stand based on the positions at the time of the stoppage.

Final (ten laps):

- Less than two laps completed by all riders still under power: the whole heat must be re-run with the original starting positions.
- From two to eight laps completed by all riders still under power: the remaining laps of the heat must be re-run based on the positions at the time of the stoppage. Riders need to queue from the starting line.
 - The rider who was in first position at the time of the stoppage must choose to start inside or outside and the other riders must queue behind with a minimum distance of one metre between each other.
 - The rider who has been penalised for the last race stoppage must start at the last position of the queue at two metres from the last rider.
 - If more than one rider has been penalised at the same time, they must start behind the last rider of the queue in the chronological order they were penalised.
- Nine laps completed by all riders still under power: result to stand based on the positions at the time of the stoppage.

26.11 Dangerous Riding

The Referee will immediately penalise any rider/riders, whom he considers indulges in foul, unfair or dangerous riding.

A rider, who, having started in a heat does not make an honest attempt to ride to the best of their ability, as judged by the Referee, will be guilty of an offence, which can entail disqualification from the heat or a penalty.

The penalty consists of the rider starting from the Penalty Lane – should there be a re-run.

There will be no protest or appeal against a Referee's decision to declare a heat completed or as to the Referee's statement of foul, unfair or dangerous riding.

If, in the opinion of the Referee, such conduct produces an advantage to the rider involved or affects the chances of one or more riders, the Referee will stop the heat and order a re-run.

If any rider is unable to cross the finish line as a result of foul, unfair or dangerous riding on the part of another rider who, in consequence, has been disqualified, the disadvantaged rider will be deemed to have finished the heat in the placing held immediately before the foul, unfair or dangerous riding incident and allowing for any advancement in placing following the disqualification of the guilty rider.

A similar system will apply for a rider who – in the opinion of the Referee – has deliberately laid down his motorcycle or has left the course in the interest of safety.

26.12 Re-staging or Abandonment of a Race Meeting

If a race is interrupted or suspended for any reason whatsoever, the following rules will apply:

- Interrupted before Heat 9 is accomplished and the remaining heats cannot be completed the same day, then the results are not taken into consideration.
- Interrupted before Heat 12 is accomplished and the remaining heats cannot be completed, then the race points scored at the completion of Heat 9 will determine the final race meeting classification.
- Interrupted before the Last Chance heat is accomplished and the Final cannot be completed, then the rider's total race points scored at the completion of Heat 12 will determine the final race meeting classification.

In the event of a tie in the points scored at the completion of Heat 9 or 12, the finishing order will be determined by the formula set out in article 26.15.

If the meeting is abandoned before the Final heat is accomplished and the remaining races cannot be completed, then the riders placed 7th - 14th will have already been determined from the Last Chance heat. 1st - 6th and 15th to 24th will be determined by the intermediate classification after Heat 12.

(Continued over the page)

26.13 Starting Assistance

After the green light has been switched on (or other starting warning given), no outside assistance can be given to any rider.

If, at that time, a rider's machine is not moving under its own power, the rider concerned will start from the Penalty Lane.

26.14 Re-Run Race

If an accident occurs on the track and, in the opinion of the Referee, it is dangerous for the race to continue, the Referee must stop the race. Only the Referee is empowered to order a race to be stopped.

Any rider who, for any reason, is deemed to have been the primary cause of a race being stopped shall be disqualified or penalised.

The Referee may permit any rider who has fallen – because of having been fouled or because they have deliberately laid down their motorcycle or left the course in the interest of safety to take part in the re-run. In such cases any outside assistance may be ignored.

Any rider eligible to take part in a re-run can change their motorcycle for the re-run.

When taking part in a re-run, riders must start from their original starting positions except for the penalised rider(s).

Any rider who has failed to start in, has retired from (which includes not proceeding under power when the heat was stopped) or has been disqualified from a heat which has been ordered to be re-run, will be ineligible to take part in the re-run, except in circumstances where they have retired after being fouled or have stopped in the interest of safety as described above.

26.15 Results

26.15.1 Calculation of Results

Results are determined by points relating to finishing order, or in the Last Chance and the Final (without points) which are determined only relating to the finishing order and chronological order in case of riders not finishing a heat.

The order of the Final heat will be the order of final classification from 1st to 8th place.

The riders from 9th to 14th place are placed according to the order of crossing the finishing line in the Last Chance heat.

Positions 15th to 24th are according to the Intermediate Classification following the qualifying heats.

(Continued over the page)

Qualifying heats points:

1st place	7 pts
2nd place	6 pts
3rd place	5 pts
4th place	4 pts
5th place	3 pts
6th place	2 pts
7th place	1 pt
8th place	0 pt

The rider in the last position will score no points if he is lapped by the leader of that race.

For riders who have not completed the required number of laps or, for any other reason have not completed a heat, the following will be noted in the programme:

M = disqualified for 90 seconds rules T = disqualified for false start

R = retired from the race d = disqualified

F = fall but not disqualified N = no start

26.15.2 Ties

After the completion of the qualifying heats, and when establishing the order between the riders in the 'Intermediate Classification', any ties will be solved as follows:

- a) Precedence will be given to the riders (tied on race points) having the better placings (a "0" for last placing is better than being disqualified for whatever reason).
- b) If the tie persists, precedence will be given to the better placed rider in the heat or heats where the 2 riders have met.
- c) If solutions a) or b) cannot be used, the order will be determined by a ballot.

27 TIES

27.1 Individual Speedway, Ice Speedway, 85cc/190cc Youth Speedway, 250cc Youth Speedway and 125cc Youth Track Racing Cup.

In all Championship and Cup events, after the official programme of heats has been completed, there will be a run-off heat to resolve any tie-on points between riders:

- Should there be a tie for the first place (this does not apply to formulas where the Final Heat /Heats decides the overall classification of a meeting, e.g. SEC Finals) OR for the last qualifying place or substitute position, to go forward to the next round or for the first three places in the overall classification of a Championship or Cup, there will be an additional heat (run-off) to resolve the tie.

Starting gate positions for the run-off will be chosen in the presence of the Clerk of the Course and either the Referee and/or the Jury President (if nominated).

When establishing the finishing order between the riders in the list of intermediate or final results of all events (applicable also for abandoned events with run-offs not included), ties will be solved as follows:

- a) Precedence will be given to the riders, tied on points, having the greatest number of 1st, 2nd, 3rd, 4th placing (an “0” for last placing being better than M-R-F-T-d-N).
- b) If the tie persists, providing riders have met equal times, and involves:
 - Two riders – precedence to the best placed when the two riders met. If still tied as both a non-finisher when they met, move to point c).
 - Three riders – if one rider beat the other two, they are deemed best placed, and the best placed when the other two met is deemed the higher of these two.
If the riders are still tied as no precedence as described, or non-finishes when met – move to point c).
 - Four or more riders tied – the ‘who beat who’ principle within the group of tied riders, totalling wins v loses when the riders met.
If the riders are still tied with the number of wins within the group, they can then be split into ‘sub groups’ and use the same procedure above for splitting two or three riders if necessary.
If all four or more riders are still tied, then move to item c).
- c) If solutions a) or b) cannot be used, the order will be determined by a ballot.
In case one or more run-offs cannot be held due to force majeure, then precedence will be given to the riders (tied on points) according to points a), b) or c) of this article.

(Continued over the page)

27.1.1 Last Qualifying Place

For any FIME Individual competition in which the last qualifying place or substitute place to the Final/next round is decided by comparing the results of riders who compete at different Semi Finals or Qualifying Rounds, the following applies:

27.1.1.1 If in all events the riders raced in the same number of heats, the rider who scored the most points will qualify through to the Final.

27.1.1.2 If the riders participated in a different number of heats (due to any of the events being abandoned BEFORE the completion of the full programme of heats), the average score per heat of the rider who raced in the lesser number of heats, will be added to his result (as many times as necessary to ensure the same number of heats have been calculated as the other riders completed).

This will ensure a fair comparison to the other rider's score. The rider with the most points (following such a comparison) will then qualify through to the Final.

In case of a tie in either of the situations outlined above, precedence will be given to the rider (tied on points) having the most number of 1st, 2nd, 3rd, and 4th places (a '0' for last place being better than M-R-F-T-d-N), taking into consideration the placing of all riders of each rider.

If the tie still cannot be resolved, the TRC will conduct a ballot.

27.2 Team/Pairs Speedway

27.2.1 Additional Heat (Run Off)

In all Championship and Cup events, after the official programme of heats has been completed (for the Ten Pair format applies to the overall classification of the series), should there be a tie for the first place or for the last qualifying place, or substitute position (to go forward to the next round), or for the first three places in the overall classification of a Championship or Cup there will be an additional heat (run-off) to resolve the tie.

One rider from each team involved in the tie will be nominated by the Team Manager to compete in the run off.

Starting gate positions for the run-off will be **chosen** in **the** presence of the Clerk of the Course and either the Referee and/or the Jury President (if nominated).

If due to a situation of "force majeure", such a run-off cannot be staged, and in the situation of any other ties on points, the precedence will be given to the Team (tied on points) having the most number of 1st, 2nd, 3rd and 4th places, (a '0' for last place being better than M-R-F-T-d-N), taking into consideration the placing of all riders of each Team/Pair.

NOTE: This rule does not apply to any competitions which comprise of more than one 'Final' meeting.

If the tie still cannot be resolved, then the Team/Pair with the higher position on the 'Ranking List' (for certain Team/Pair's competitions based on the previous year's results), will decide the result.

(Continued over the page)

If these criteria cannot solve the tie, then the final order will be balloted by the Jury President (if nominated) or the Referee.

27.2.2 Last Qualifying Place

For any FIME Team or Pair competition in which the last qualifying place to the Final/Grand Final is decided by comparing the results of two Teams or Pairs who compete at two different Semi Finals/Finals, the following applies:

27.2.2.1 If in both events the Teams/Pairs raced in the same number of heats, the team which scored the most points will qualify through to the **Final/Grand Final**.

27.2.2.2 If the Teams/Pairs participated in a different number of heats (due to one or both events being abandoned BEFORE the completion of the full programme of heats), the average score per heat of the Team/Pair which raced in the lesser number of heats, will be added to this teams' result (as many times as necessary to ensure the same number of heats have been calculated as the other Team/Pair completed). This will ensure a fair comparison to the other Team/Pairs score. The Team/Pair with the most points (following such a comparison) will qualify through to the Final/Grand Final.

NOTE: In case of a tie in either of the situations outlined above, precedence will be given to the Team (tied on points) having the most number of 1st, 2nd, 3rd, and 4th places (a '0' for last place being better than M-R-F-T-d-N), taking into consideration the placing of all riders of each Team/Pair.

If the tie still cannot be resolved, then the Team/Pair with the higher position on the 'Ranking List' for certain Team/Pair's competitions based on the previous year's results will decide the result.

27.2.2.3 For the ETSC Challenge Day event – in case of a tie in points scored by teams who have finished second in their Groups – there will be an additional heat (run-off) to resolve the tie.

One rider from each team involved in the tie will be nominated by the Team Manager to compete in the run off.

Starting gate positions for the run-off will be chosen in the presence of the Clerk of the Course and either the Referee and/or the Jury President (if nominated).

If due to a situation of "force majeure", such a run-off cannot be staged the regulations of 27.2.2.2 apply accordingly.

27.3 Team/Pairs Competitions

In case of a tie in a Team/Pair's competition in Intermediate Classification or in case of a meeting being abandoned before the full programme of heats was accomplished, precedence will be given to the Team/Pair (tied on points) having the greatest number of 1st, 2nd, 3rd, and 4th places (a '0' for last place being better than M-R-F-T-d-N), taking into consideration the placing of all riders of each Team/Pair.

(Continued over the page)

If the tie still cannot be resolved, then the Team/Pair with the higher position on the 'Ranking List' for certain Team/Pair's competitions based on the previous year's results will decide the result.

27.4 Individual Grass Track and Sidecar

In all Championship and Cup events, following completion of the 'Intermediate Classification' there is a tie, and then the following will apply:

- a) Precedence will be given to the riders having the greatest number of 1st, 2nd, 3rd, 4th, 5th or 6th placing where applicable (an '0' for last placing being better than M-R-F-T-d-N).
- b) Ballot, (the ballot will be completed by the Referee, in the presence of the Jury President (if nominated))

In all Championship and Cup events, if following the 'Final Heats' (for example a dead heat in the Finals), there is a tie for either of the first three places, or for the last qualifying place, or for a reserve rider to go forward to the next round, a run-off will need to be staged to resolve the tie.

In the situation where a run off cannot be staged (for example in the interest of safety or severe weather conditions), the higher ranked rider/team at the 'Intermediate Classification' stage, will be awarded the higher position for the overall classification.

28 FORMATS FOR 'PAIRS' EVENTS

For all formats the following rules apply:

All heats will consist of four laps.

Riders who are members of the same 'Pair' can change their programmed starting positions with each other in the same heat. However, the helmet colours MUST remain as programmed in the race format.

Each Pair consists of two riders + a substitute (non-compulsory but highly recommended).

Each FMN may nominate one 'Pair'. The riders of a 'Pair' must have a passport issued by the country of the FMN which nominated the 'Pair'.

Unless stated differently in appropriate rules, the riders scores depend on the final position in a heat, accordingly

1st place – 3 points, 2nd place – 2 points, 3rd place – 1 point, 4th place – 0 points

28.1 Seven Pairs Race Format

Starting numbers:

Pair A = 1, 2 and 15 (substitute)
Pair B = 3, 4 and 16 (substitute)
Pair C = 5, 6 and 17 (substitute)
Pair D = 7, 8 and 18 (substitute)
Pair E = 9, 10 and 19 (substitute)
Pair F = 11, 12 and 20 (substitute)
Pair G = 13, 14 and 21 (substitute)

Race Format for 'Seven Pairs':

Helmet Colour	Red (inside)	White	Blue	Yellow (outside)
Heat No.	Riders' starting numbers			
1	1	3	2	4
2	5	7	6	8
3	9	11	10	12
4	13	1	14	2
5	3	5	4	6
6	7	9	8	10
7	13	11	14	12
8	1	5	2	6

(Continued over the page)

Helmet Colour	Red (inside)	White	Blue	Yellow (outside)
Heat No.	Riders' starting numbers			
9	7	3	8	4
10	9	13	10	14
11	11	1	12	2
INTERVAL				
12	3	9	4	10
13	5	11	6	12
14	13	7	14	8
15	1	9	2	10
16	11	3	12	4
17	5	13	6	14
18	7	1	8	2
19	3	13	4	14
20	9	5	10	6
21	11	7	12	8

In the case of a tie for the first three places, refer to article 25 'Ties' further within these rules.

If the meeting has to be abandoned BEFORE the full schedule of races has been completed, the results are considered final if at least 14 heats have been completed, then the results after Heat 14, will be considered to be the final classification of the event.

28.2 Six Pairs Format

Starting numbers:

Pair A = 1, 2 and 15 (substitute)
Pair B = 3, 4 and 16 (substitute)
Pair C = 5, 6 and 17 (substitute)
Pair D = 7, 8 and 18 (substitute)
Pair E = 9, 10 and 19 (substitute)
Pair F = 11, 12 and 20 (substitute)

(Continued over the page)

Race Format for 'Six Pairs':

Helmet Colour	Red <i>(inside)</i>	White	Blue	Yellow <i>(outside)</i>
Heat No.	Riders' starting numbers			
1	1	3	2	4
2	5	7	6	8
3	9	11	10	12
4	7	1	8	2
5	3	9	4	10
6	11	5	12	6
7	8	4	7	3
8	6	10	5	9
9	2	12	1	11
10	4	6	3	5
11	10	2	9	1
12	12	8	11	7
13	11	3	12	4
14	1	5	2	6
15	7	9	8	10

In the case of a tie for the first three places, refer to article **27** 'Ties'.

If the event has to be abandoned BEFORE the full schedule of races has been completed, the results are considered final if at least 9 heats have been completed.

The result, after the completion of either Heat 9 or 12 (according to the number of heats completed), will be considered to be the final classification of the event.

(Continued over the page)

28.3 Eight Pairs Format

Starting numbers:

Pair A = 1, 2 and 17 (substitute)
Pair B = 3, 4 and 18 (substitute)
Pair C = 5, 6 and 19 (substitute)
Pair D = 7, 8 and 20 (substitute)
Pair E = 9, 10 and 21 (substitute)
Pair F = 11, 12 and 22 (substitute)
Pair G = 13, 14 and 23 (substitute)
Pair H = 15, 16 and 24 (substitute)

Race format for 'Eight Pairs'

Helmet Colour	Red <i>(inside)</i>	White	Blue	Yellow <i>(outside)</i>
Heat No.	Riders' starting numbers			
1	1	3	2	4
2	5	7	6	8
3	9	11	10	12
4	13	15	14	16
5	7	1	8	2
6	3	5	4	6
7	15	9	16	10
8	11	13	12	14
9	1	11	2	12
10	9	3	10	4
11	5	15	6	16
12	13	7	14	8
13	15	1	16	2
14	3	13	4	14
15	11	5	12	6
16	7	9	8	10
INTERVAL – 20 MINUTES				
17	15	3	16	4
18	5	13	6	14

19	1	9	2	10
20	11	7	12	8
21	9	5	10	6
22	13	1	14	2
23	3	11	4	12
24	7	15	8	16
25	5	1	6	2
26	7	3	8	4
27	13	9	14	10
28	11	15	12	16

In the case of a tie for the first three places, refer to article **27** 'Ties'.

If the event has to be abandoned BEFORE the full schedule of races has been completed, the results are considered final if at least 16 heats have been completed. The results after Heat 16, will be considered to be the final classification of the event.

28.4 'Ten Pairs' Format

Starting numbers

The teams are divided into two groups and the starting numbers will be balloted before each event as follows:

Group 1 (contains pairs on positions 1, 4, 5, 8, 9 in the intermediate classification)

Pair A = 1, 2 and 11 (substitute)
Pair B = 3, 4 and 12 (substitute)
Pair C = 5, 6 and 13 (substitute)
Pair D = 7, 8 and 14 (substitute)
Pair E = 9, 10 and 15 (substitute)

Group 2 (contains pairs on positions 2, 3, 6, 7, 10 in the intermediate classification)

Pair F = 21, 22 and 31 (substitute)
Pair G = 23, 24 and 32 (substitute)
Pair H = 25, 26 and 33 (substitute)
Pair I = 27, 28 and 34 (substitute)
Pair J = 29, 30 and 35 (substitute)

(Continued over the page)

28.5 Race Format for 'Ten Pairs'

Helmet colours	Red (inside)	White	Blue	Yellow (outside)
Heat No.	Riders' starting numbers			
1	1	3	2	4
2	21	23	22	24
3	5	7	6	8
4	25	27	26	28
TRACK MAINTENANCE				
5	9	1	10	2
6	3	5	4	6
7	29	21	30	22
8	23	25	24	26
TRACK MAINTENANCE				
9	7	9	8	10
10	27	29	28	30
11	5	1	6	2
12	25	21	26	22
TRACK MAINTENANCE				
13	27	23	28	24
14	29	25	30	26
15	7	3	8	4
16	9	5	10	6
TRACK MAINTENANCE				
17	21	27	22	28
18	1	7	2	8
19	23	29	24	30
20	3	9	4	10
TRACK MAINTENANCE				

After Heat 20 there will be a classification in the groups according to the points scored by the pairs.

In case of a tie refer to article **27.3** 'Ties'.

The best three 'Pairs' of each group will meet in the Final heats. The starting gates for the Final heats will be balloted in the presence of the Jury President or Referee.

(Continued over the page)

FINAL HEATS	
FINAL 'C'	Pairs on 3 rd position in their Groups
FINAL 'B'	Pairs on 2 nd position in their Groups
FINAL 'A'	Pairs on 1 st position in their Groups

The points the 'Pairs' score in the Final heat will decide on positions 1-2, 3-4 and 5-6 in the event. In case of a tie in any of the Final heats, the 'Pair' whose rider has won the heat will be classified as having the better place in the event.

'Pairs' on positions 7th to 10th in an event will be classified according to the total number of points they have scored in heats 1-20. In the case of a tie these 'Pairs' are classified on the same position in the meeting.

If the event has to be abandoned BEFORE the full schedule of races has been completed, the results are considered final if at least 10 heats have been completed, then the results after Heat 10 or 20 – whichever applies – will be considered to be the final classification of the event.

29 FINES

Riders breaking the Track Racing Rules will be fined by the Referee or the FIM Europe Jury. These fines will be a statutory amount **per offence** and are as follows:

1.	Arriving after the signing-on time stated in the SR's.	150 €
2.	Arriving after the start of the first heat.	250 € + disqualification from the event
3.	Absence without having advised FIME and/or the organisers in writing (either by email or letter), or absence after having advised the organisers in writing (either by email or letter) <u>but for a reason NOT accepted</u> by either the FIM Europe Jury or the FIM Europe Track Racing Commission.	300 €
4.	Absence of motorcycle or late arrival at machine examination.	200 €
5.	Riders not respecting the specified times regarding the 'Track Walk'	(i) <u>First offence</u> : Warning (ii) <u>Second offence</u> : 300 €
6.	Mechanic's not respecting the mechanics line (when applicable)	(i) <u>First offence</u> : Warning (ii) <u>Second offence</u> : 300 €
7.	Absence or late arrival at the Riders' or Team Managers briefing.	200 €
8.	Absence or late arrival at the pre-event parade.	200 €
9.	Absence or late arrival at the prize-giving ceremony.	200 €
10.	Absence or late arrival at the press conference.	200 €
11.	Race jacket or national race suit: (i) Not in accordance with FIM specification (5.1) (ii) Not worn during practice/warm up session, the race meeting, prize giving ceremony or press conference.	(i) 500 € and up to disqualification from the meeting (ii) 500 € and up to disqualification from the meeting
12.	Any part of the race jacket/front fork cover, covered by any object (when supplied), on practice day or race day.	500 € and up to disqualification from the meeting
13.	Helmet covers or helmet colours not conforming to article 70.5.2 TRA and diagram of helmet colours):	(i) <u>First offence</u> : 600 € (ii) <u>Second offence</u> : disqualification from the meeting
14.	Not using the environmental mat during practice, racing or in the Parc Fermé	100 € per mat
15.	Any inappropriate conduct: (i) With words or signs, (ii) With violence. (iii) Refusal for taking part in one or more scheduled additional heats (run off).	(i) 160 € (ii) 500 € (iii) 800 €

All other offences to the rules will be penalised according to the FIM Europe Disciplinary and Arbitration Code.

Any FMN withdrawing a Rider/Pair/Team/Sidecar team – following publication of the 'Allocation of Riders' spreadsheet, or prior to the staging of any Championship or Cup competition – may be penalised by the FIME Management Council, based on a proposal made by the TRC.

NOTE 1: Riders are responsible for their mechanics and support teams.

NOTE 2: In accordance with the FIME Disciplinary and Arbitration Code (article 3.1.5), the fine must be paid via a bank transfer by the FMN of the penalised rider. Therefore, immediately after the completion of the meeting, the Jury President or the Jury President/Referee must inform the General Secretariat in Rome (in writing) of any fines imposed during the event. The collection/payment of the fine(s) will then be undertaken by the General Secretariat.

30 2026 HOMOLOGATED SPEEDWAY TYRES

Please refer to the FIM Technical Rules for a current list of FIM homologated (approved) tyres

31 2026 APPROVED DIRT DEFLECTORS FOR SPEEDWAY, GRASS TRACK AND LONG TRACK

(NOT APPLICABLE FOR European 85/190cc Youth Speedway Cup and European 125cc Youth Track Racing Cup)

Please refer to the FIM Technical Rules for a current list of FIM homologated (approved) Dirt Deflectors.

32 2026 SILENCERS

Please refer to the FIM Technical Rules for a current list of FIM homologated (approved) silencers.

33 RIDERS' REMUNERATION

33.1 Travel Expenses

Travelling expenses are included in the scale of expense reimbursement for each FIM Europe Championship and Cup event.

Agreements between FMN's – Organisers are allowed to reimburse airfares or other expenses subject to agreement between FMN's and the promoter involved.

33.2 Hotel Accommodation

Organisers will not pay for accommodation for the riders.

Information regarding reservation and eventual payment of the hotel accommodation must be sent to the riders (or to the FMN of a Team or a Pair).

33.3 Expenses Reimbursement

All amounts indicated on the reimbursement scales for the various FIM Europe championship events are shown in Euro's (€) and are net amounts. All amounts **MUST** be paid to the riders in Euros.

If the expenses reimbursement is NOT going to be paid on the day of the event by the organiser, then this must be clearly stated in the SR's, together with confirmation as to how the reimbursement will be paid (e.g. bank transfer or similar).

Should a FIM Europe championship event have to be cancelled (following a decision by the FIM Europe Jury), and the event cannot be restaged either due to extreme weather conditions or force majeure, then the organising club must pay 50% of the events total prize fund shared equally amongst the competitors.

33.4 Scale of Expenses Reimbursement

33.4.1 INDIVIDUAL SPEEDWAY EURO CHAMPIONSHIP

Finishing Position	Qualifying Rounds	Euro Championship Challenge (ECC)
1 st	820	1170

34 APPENDIX 1 – SIDECAR (500cc) TECHNICAL SPECIFICATION

The following technical information was previously detailed in the FIM Technical Rules. However as 500cc Sidecar's only complete in an FIM European championship, the rules below were removed from the FIM Technical Rules (January 2024) and are now contained in this appendix.

However there are some rules which are still contained within the FIM Technical Rules that will need to be referenced (e.g. capacity, use of titanium, exhaust systems, control leavers, throttle controls, ignition cut out switches, foot rests, mudguards etc), together with the information contained in this appendix.

34.1 Weight:

The minimum weight for Track Racing 500cc Sidecars = 115kg (unladen)

34.2 Wheels, Rims And Tyres For Track Racing Sidecars:

Front Wheel: Minimum rim diameter: 21"

Minimum diameter wheel spindle: 15 mm solid steel shaft permitted only.

Minimum diameter spokes: 3.5 mm M4, steel construction.

Spoke lacing must cross twice.

34.2.1 Rear Wheel:

Min rim diameter: 19". Max rim diameter: 22"

Minimum diameter wheel spindle: 17mm, solid steel shaft permitted only.

Minimum diameter of spokes: 4mm, M4, steel construction
Spoke lacing must cross twice.

Maximum tyre width: 100mm.

A suitable chain guard must be fitted to protect the area where the rear chain enters onto the rear wheel sprocket.

34.2.2 Sidecar Wheel:

Minimum rim diameter: 16"

Minimum diameter wheel spindle: 25 mm tempered steel shaft permitted only (*refer to diagram 1*).

Minimum diameter spokes: 4 mm, M4 steel construction.

Spoke lacing must cross twice.

Spindle sleeves must be secured by supplementary self-locking nuts, e.g. Nylock or castle nuts with split pins.

The minimum width between the wire spoke flanges at the hub must be 75 mm.

The spoke holes must be countersunk on both sides. Plastic hubs are forbidden.

NOTE: There is no restriction for the size or type of the front or Sidecar tyres. However, the tyre tread pattern must remain as designed by the manufacturer.

(Continued over the page)

34.3 Sidecar Construction:

34.3.1 General

For all races, only single cylinder 4-stroke engines are allowed.

The maximum engine capacity is 500cc, four valves maximum fitted with one carburettor (maximum diameter 38mm) and one spark plug.

The Sidecar must be fixed to the motorcycle in at least four separate fixing points from the sidecar frame onto the motorcycle chassis (*refer to diagram 2*).

Fixing point 1: Must be mounted directly to the rear of the Sidecar chassis, through the rear wheel plate/arm no more than 150mm in front of rear wheel spindle must be fixed rigid using a minimum steel bolt fixing of M10.

Fixing point 2: Diagonal Sidecar support serves as a hand hold for the passenger, must be fixed rigid to the engine plate using a minimum steel bolt fixing of M10.

Fixing point 3: Sidecar main tube (centre spar) must be fixed rigid between the engine plates using a minimum steel bolt fixing of M10 through the nearside and offside engine plate if it is not an integral part of the chassis.

Fixing point 4: This support bar must be fixed rigid utilising the bottom front engine bolt.

Fixing points 3 and 4 must be no less than 350mm apart.

NOTE 1: If the motorcycle is fitted with an ACTIVE/MOVING swinging arm, then an alternative and substantial 'Fixing Point 1' (minimum 8mm thick aluminium or equivalent), must be used to attach the Sidecar frame to the motorcycle chassis. In this situation the fixing can be no less than a M8 steel bolt.

NOTE 2: Fixing point 3: this is the main Sidecar tube that runs directly from the motorcycle chassis to the Sidecar wheel. It is fixed between the engine plates below the gearbox area and is secured from both sides through the engine plates using M10 steel bolts (refer to diagram 3).

NOTE 3: Fixing point 4 must be a minimum of 350mm in front of fixing point 3 .

NOTE 4: All fixings/bolts used for the chassis fixings points (other than in Note 1 above), must be M10 or larger steel bolts.

Hinged/pivoted Sidecars are strictly forbidden.

The angle of inclination of the motorcycle chassis, with respect to the vertical line to the ground, must not exceed 15 degrees, and the Sidecar wheel must not exceed 30 degrees (refer to diagram 5).

The minimum dimensions of a Sidecar available for passenger accommodation are: minimum length: 1000 mm and minimum width: 400 mm.

(Continued over the page)

There must be no movement on any part of the Sidecar fixing points. If the angle of the sidecar is adjustable (via the positioning of the sidecar wheel), then it must be clamped in such a way that it is completely secure using three steel fixing bolts no less than M8 – with the addition of an end stop fitted to the end of the main tube.

The 'Toe In and Toe Out' position adjuster (often referred to as the Sidecar knuckle), must be clamped in such a way that it is completely secure using two steel fixing bolts no less than M8 (*refer to diagram 4*)

The fuel tank and oil tank must be securely mounted and positioned behind the steering head.

The outside Sidecar wheel shall be provided with a protective horizontal tube (minimum tube diameter: 22 mm), fixed at the same height as the Sidecar spindle. No component shall protrude beyond this protective tube.

34.3.2 Drive:

The drive shall be transmitted to the ground only through the rear wheel of the motorcycle.

34.3.3 Wheel Spindles and Headstock Bolts:

These fixtures must be of a solid construction and NOT drilled or lightened. They must be fitted with either a self-locking nut or split pin to.

34.3.4 Rear Wheel and Sidecar Wheel Offset:

The distance between the tracks left by the centre lines of the rear motorcycle wheel and the Sidecar wheel must be at least 800 mm and must not exceed 1100 mm.

34.3.5 Wheel Displacement:

To reduce the torque in the steering, a maximum displacement of 75mm is permitted between the front wheel and the rear wheel.

34.3.6 Handlebars:

Handlebars must be firmly secured to the forks. They must be at a height above the mid-point of the seat. The motorcycle must have a steering head which must be fitted like the handlebar and must not be attached to the unsuspended part of the front wheel suspension.

34.3.7 Front Forks:

The front forks of the motorcycle must be securely fitted to the headstock using a headstock spindle of minimum 14 mm diameter.

34.3.8 Steering:

The steering of the front wheel must be via 'leading link' front forks, with the wheel supported equally each side (long or short leading link type). All other types of front wheel steering and suspension are forbidden.

(Continued over the page)

34.3.9 Engine Position:

The position of the engine is optional, except that it must be positioned in front of the rear wheel. The centre line of the engine corresponds to the crankshaft axis (for longitudinal engines) and to the centre of line of the cylinder block (for transverse engines)

The centre line of the engine shall not exceed more than 160 mm beyond the centre line of the rear wheel of the motorcycle.

If the engine and gearbox are mounted on plates, the minimum thickness of the albased alloy engine plates must be 8 mm.

34.3.10 Exhaust System:

The exhaust system must not extend beyond the outer circumference of the rear tyre and must not end before the centre of the rear wheel spindle.

The motorcycle exhaust system must be securely fixed at four points – the point of fixture at the cylinder head is considered as one point.

The silencer must be fitted to the frame with at least one fixing (*refer to diagram 5*).

Additionally a second flexible fixing must be fitted from the first third of the silencer to the frame. This second flexible fixing should be a steel cable of at least 3mm diameter or a strong steel spring.

The silencer must be of a type that is currently listed within the FIM Technical rules.

The silencer must be fitted with a suitable heat shield.

34.3.11 Carburettor:

The diameter of the motorcycle's carburettor will be a maximum of 38 mm (*refer to diagram 6*).

34.3.12 Riders Seat Height:

The minimum height of the rider's seat shall be 400mm, measured from the ground of the motorcycle in a fully laden (e.g. with rider and passenger) position.

34.3.13 Ground Clearance:

The minimum ground clearance at the front edge of the Sidecar platform is 150 mm. The ground clearance of a fully laden Sidecar (with rider and passenger) must not be less than 100 mm at any point.

34.3.14 Wheel Protection:

The rear wheel and Sidecar wheel must be covered or protected with a solid material, ensuring that any fixings do not become loose or come apart during racing.
